GG123 - April 16, 2016, 11:52 am

Sadly his prediction wasn't correct but I don't blame him it was 13-16 close game. It's fine though because most of his predictions are correct.

GG123 - April 17, 2016, 2:56 am

My vouch copy review :

Detail in predictions 10/10 :

He tells you what team will most likely win, he explains what league it is and most of the time he is correct, he's only been wrong on one occasion so far.

Accuracy Rate 9.5/10 :

So far out of all the games I've asked him to predict for me, which is like 3 or 4, he's only got one of them wrong but I don't blame him for that, it was a very tight game. Overall very good and you can make a big big profit!

Overall 9,8/10 :

Very accurate, worth the money as you'll probably make it back of course.

In my opinion I think you can profit a lot, a guy who bought in yesterday already made 1.5 BTC. However, his betting unit is kinda high too.

So I've been in this group for 4 days, and I'll say that rookie isn't that bad.

Ever since I joined, he has been 6/10 on his predictions, but I'm not scared. His previous bets seem to be very on point, has a 38/58 win ratio, and posts his predictions on time and well. And what's

great about rookie's skype chat, is that it doesn't constantly get off track.

I've talked to rookie and he seem's like a cool guy. I'll definitely be continuing with rookie

I have been in this group for a while now and I am glad to say that I have more than doubled my profits in CSGO skins from this group!

Would definitely recommend as the predictions as they are accurate at least 70% of the time.
Rookie's a great guy and I'll definitely stay in the group!
