Giving out vouch copies? I can give you a detailed review for it.

Ascendon - April 17, 2016, 2:59 pm

Autobuy is now setup and final updates to the book have been made!

This book is now ready to be purchased, you will not regret it.

I will answer questions as long as they don't disclose the contents of the book itself for obvious reasons.

I will only give 3 vouch copies for reviews to people i believe will not leak my Ebook.

Let me know.?

Edit: Vouch for OP. Contents is easy to follow with good grammar. I knew the first method however, but you can easily make money with it (I have already done this.)

However, I did not think of the second method so thats pretty cool. Nice OP and GLWS.

Ascendon - April 18, 2016, 10:55 am

This is a revamped version of my old book!

I'm adding a discount code for the first 10 copies!

M?xim - April 18, 2016, 2:58 pm

Worked with this guy mainly on the thread design and got the chance to review the ebook. I agree with Travis review, you can easily make money on this if you are still in education or just around a

few people at any time.

Ascendon - *April 19, 2016, 11:49 pm*

Discount code is FIRST10 for 25% off!

Joy - *April 19, 2016, 11:56 pm*

\$10 for the eBook and no support and \$15 for ur exclusive private method with the main ebook and support then i will take ur exclusive private method and support for \$5 with the 25% off so its \$3.75.
