This is an amazing deal for anyone looking for high quality and well made graphics. Sahaj worked me through it and was very careful with the design to make sure it actually matched my forum. I love the banner, it's probably my favorite thing about my forum now.

If you use Sahaj's services you wont be disappointed. There were definitely no hidden charges and he did this quite fast. I would've received the final product even sooner but I had to go to bed! I'll definitely be using Sahaj's services again in the future.

Love you man.

Sadly advertises with "There are no hidden costs" yet he tries to sell me PSD files after he has done everything.

I've also told him to deal with my designs with discretion and yet he showed it around to other members.

I've opened a Trade dispute yet he tells me he wants 20\$ for the PSD Files which is absolutely ridiculous.

I advertise everybody to not deal with him and take extreme caution. He will not state any other prices and will try to squeeze out some fancy extra cost.

Eventually I got my PSD's for the low price of 13\$ - "No hidden cost"

Oh btw I would've given him 20 EUR if everything would've went smooth but whatever he doesn't seem to care about that. Just try to sell some excuses it's alright.

Over 70 satisfied clients just on HF, and then this guys comes, being cheap, saying things like, "\$10 can give me food for 15 days in my country", not willing to pay for my hard work, which he was going to give to some other designer to replicate all of it, copy my styles. He clearly doesn't have no knowledge about the business and how the graphics can be leached. My services are cheap, but some people just expect too much for the little price I ask for. I never said that I'll give away PSD's to him, and then he digs into all the messages, and turn one message against me, where we talked about just panels. Sent him all files one by one, after finishing them, he had no problem with them, but now he wanted to go to some other designer, who wanted PSD's and then he started this, just makes me sad how cheap he is, and the things he said about my personal life.

I've been doing graphics for long time, and I know what I'm doing, which he clearly doesn't. Honestly, during my whole time on HF, this was the first ever dispute I had, and for nothing, but I regret doing business with him. He was hard to deal with, asked me to change designs multiple times, after I finished them, so had to do them all over again, gave him different versions for the same price, didn't ask for more, but even after all that, this happened. The dispute thread can be found [here](#) if anyone would like to have a look at the replies, and the reasonable things I said. I don't know if this would affect my service in any way, and I hope it doesn't. I offered him free updates in future, as I mentioned in my thread, and that would remain the same.

The dispute has been resolved now. He agreed on paying me half the price I asked for my hard work, which is sad, but can't do anything about it.

> saying things like, "\$10 can give me food for 15 days in my country"

It's interesting the way you say it without any context whatsoever.

> not willing to pay for my hard work,

I did pay and actually wanted to send you more money - sadly you became greedy.

> I never said that I'll give away PSD's to him

You never said that you don't include them, better include this in your TOS.

> where we talked about just panels.

It still was about all the files packed together, not the panels themselves.

> gave him different versions for the same price, didn't ask for more

Ask kindly and I would've - but not by forcing somebody to pay 20 \$ for PSD's.

> and the reasonable things I said.

Reasonable? You mean the excuses you dropped? Such as "the way you acted like Oh I never said I'd share the psds so ofc its alright"

You advertised with "no hidden costs" and paying for psd's is definitely a hidden cost.

> I offered him free updates in future

I actually need the PSD's besides that I wanted to have small changes but didn't say it cos in the end it wouldve pissed you off to add 2 letters again. Besides that I can't wait all the time.

-- Also thanks for sharing the files you made with another member while we agreed that my files shall be handled with discretion.

It's interesting to come up with this all the time allthough you pull it out of context, Whatever it's cool that you and your friends gave me -reps (in total -9)just because you feel like you have something to justify it for. I will not remove my posts besides that you almost didnt give me the PSD's because I didn't remove my comment yet and didnt change the dispute claim text, you can't force me to change my stuff when I paid you for the PSD's...

Huge vouch for my man Sahaj! He's just completed a new forum banner for me and threw in a beautiful little favicon to go along with it.

This is an amazing deal for anyone looking for high quality and well made graphics. Sahaj worked me through it and was very careful with the design to make sure it actually matched my forum. I love the banner, it's probably my favorite thing about my forum now.

If you use Sahaj's services you wont be disappointed. There were definitely no hidden charges and he did this quite fast. I would've received the final product even sooner but I had to go to bed! I'll definitely be using Sahaj's services again in the future.

Love you man.

?Adroit - October 13, 2016, 5:55 pm

Huge Ass Vouch! Honestly, his prices are cheap AF, and but he still gives good quality. He completed my thread design and animated signature in less than 12 hours which is actually amazing.

Defuse - June 17, 2017, 11:54 am

Very talented artist unbelievable worth ethic and amazing prices.

I have been working with sahaj for the past few months and he is my go to his prices are unbeatable I recently needed a logo done for a product that my supplier was going to start printing and sahaj got it done in 3 hours and only charged me \$10 he is a legend. Other gfx artist quoted me @ \$70 and this man got it done within 3 hours for \$10.

Will definitely be leaving him a tip once my btc buying limits are reset this guys is a true legend and a hard working and well established graphics artist on hackforums I recommend you get all your graphics from him.

Agent Shark - July 3, 2017, 2:35 pm

One of the best designers here. Have worked with Sahaj for months. Contacted him about my recent project along with others. Gave me the best deal and created my designs within two hours. If you want quality work at an affordable price, check him out. I am so serious when I say that this is my go to designer.
