Star Citizen is currently Free to Play, meaning until the 25th of this month anyone can download the game and try it in its Alpha state!

If you make an account use the code STAR-MRK9-46FC in the referral spot to get 5000 UEC once you buy the game! ([More about the Ref Program](#)) This will allow you to get all kinds of extras for your game ahead of everyone else!

You will love this game!

I'm not sure if it's him who is always remaking threads like this but fuck that game. People are sinking tons of money and things like this referral incentive are disgusting.

It's actually a pretty great game. I got it a few weeks ago and it's pretty amazing.
