Thread: [I need a moderator to help me delete a post](#)

Autocorrect - April 16, 2016, 10:10 pm

Hi,

I need a staff member or moderator to help me delete a post in this subforum. [Group and Crew General Discussions](#)

It contains information I'd rather not be there.

Thank you,
Auto

If it's one of your own posts you can delete it or you can have a mod delete it if the thread is closed.

If it's someone else's post you can either contact the person that posted it, or report it if it violates a rule/policy.

If it does not violate a rule/policy then your out of luck.

You can delete your own post mate. Is the thread closed?

Soz shoulda confirmed. It's my post on a locked thread, OP is gone forever.

If you can help me out Mr Kewl I'll send you the link.

If you can help me out Mr Kewl I'll send you the link.I cannot, I have no perms there.. Anyway, if its private information just send Staff a PM. They're not obliged to delete it, but they just might.
