Thread: [Allow exiled members to verify secret & verify gauth](#)

minimalist - April 17, 2016, 7:41 am

Foreword...this may be a stupid idea, but hear me out :p

I know that banned members were exiled from Hack Forums for a reason, but sometimes their product is just really appealing and you want to deal with them. What if, just like the [Contact Form](#), the [Verify Secret](#) page as well as the [Gauth](#) page were accessible by users while they're banned?

Sorry if it's a stupid suggestion, sorry if it's a suggestion that'd cause problems. Maybe it's decent, who knows.

Thanks.

A NEW ERA... - April 17, 2016, 7:43 am

This is tbh a great idea. Should be implemented soon as possible.

Six Double 0 - April 17, 2016, 7:45 am

This is a good idea, but at the same time I don't think it is. This would promote members buying products from exiled/banned members. Therefore they get the money and lets say the method doesn't work? The person who just purchased the method can't open a scam report on a user that's already banned? Well they could but it would be useless.

It takes a peanut-sized brain to end up getting scammed by an exiled member. Request that they go first, use a middleman, or just don't deal if they're not going to do either. The rules for a safe trade would still apply, this would just help users verify that it's indeed that user they're dealing with.

I understand the concept, however as exiled I feel it also means they seize all on site deals as well as activity of course.

Varane - April 17, 2016, 7:51 am

A stupid suggestion from a stupid member. If they are exiled, they are no longer allowed on this site. If they have a good product well it is a shame but it shouldn't be changed where they can still sell on the site they are no longer welcome to.

Because it's not like users contact exiled members' Skype accounts to buy the product right now anyways, stupid. This only helps to prevent scams, stupid. This suggestion does not help the exiled

member advertise their product.

reBELLYus - April 17, 2016, 7:55 am

Once exiled, they are no longer welcome here. This includes their products and services.

Stashyy - April 17, 2016, 7:57 am

Minimod, people aren't as smart as me and you. They won't use a MM.

Cryptic™ - April 17, 2016, 7:57 am

Exciled members are no longer welcome in the community. Any communication/deals you do with them are at your own risk. And you have a much higher chance of getting scammed.

Looking forward to hearing about the result about this. There is some pro's and cons. Personally I think the con's out weigh the pro's.

But why not allow the members who are a part of the forum to be able to verify that the person they're dealing with is the account owner? No harm done.

You are so stupid. How does allowing members to verify the identity of the person they're dealing with equate to Hack Forums promoting off-site dealing with exiled members? ?

No harm done? Omni would be aiding an exiled member who could have been a mass-scammer and so forth. Again, not a good idea. Also, it is added work for him. ?

No added advertisement = no added traffic. If people like the person and the product, they will contact 'em either way.

Great. With that in mind, if you are interested in the product/service of an exiled member, contact them as you "will contact 'em either way."

You answered your own question. ?

So where is the harm? ?

No harm just added work for omni as people said. If you want to contact them after they are exiled just find a way it's usually it's not that hard.

This idea lel. Lets allow BANNED members to still deal

Yeah, because members are going to continue dealing with an exit scammer. What an excellent stupid idea!

No. Banned members have been banned for different reasons. If a member who's still allowed on Hack Forums stumbles upon a member's thread but he was banned for, say, low quality posts, then they can still deal with them.

What if this was a new member and was not aware that the user had pulled a huge exit scam and did not have access to the page that showed ban reasons?

[Exit scammers are closed, not banned.](#)

Such was the case in the OrgX situation: he was repkilled immediately and closed subsequently.

Such was the case in the OrgX situation: he was repkilled immediately and closed subsequently. If you check some accounts are closed and banned as well.

For example: <https://hackforums.net/member.php?action=profile&uid=1058648>

If you view his ban reason, it states he has been closed as well.

Overall, this is a horrible suggestion. I am 99.99% sure that Omni will be denying this.

Deal via skype. People are banned for a reason.

Admittedly, some of my ideas are pretty stupid but this is an excellent one. Flaws have been addressed ?
