I was so in love with last nights episode. Animation was a little inconsistent, but mainly, it was good. To be fair, I couldn't care less whatever else happened during the episode as long as we saw Kaioken.

Edit: Here's another image of it.

My nigga first go watch "dragon ball" not "dragon ball z" or "dragon ball gt" . Then after dragon ball sega, move on to dragon ball z sega, then you can go to super or gt :)

Dragon Ball > Dragon Ball Z > Dragon Ball Super

Don't even bother with GT. It's dumb and non canon.

Dragon Ball Z > Dragon Ball > Dragon Ball Super > Dragon Ball GT > DBZ Kai

Who know's he may like GT. It had good parts...

And Toriyama Did Work On It..

Your order there goes against everything that anyone else on this thread has put xD Just confused the fuck out of me

So we go Dragon Ball: http://myanimelist.net/anime/223/Dragon_Ball

Then Dragon Ball Z: http://myanimelist.net/anime/813/Dragon_Ball_Z

Then Dragon Ball Super: http://myanimelist.net/anime/30694/Dragon_Ball_Super

As I understand it, Kai is basically the same as Dragon Ball Z without the filler episodes and GT is pretty much known as being awful and unrelated and you will be fine not watching it.... is this correct?

Toriyama did some character designs and the logo, not the story.

I personally don't ever see myself watching GT ever again tbh.

Personally: DBZ > DBS (for now) > DB > DB Kai (don't care for it) > DBGT (above)

Yes. Also, Kai has different music, changed dialogue/voice actors and cut out very few, but great filler scenes.

Dragonball Super cartoon sucks shit, the manga is decent but is translated once a year.

Just watched the first episode of Dragon Ball; it wasn't what I expected but I really did enjoy it - it was light hearted and I liked that
