Thread: [\[Squad\] Squad Spammer || Free spamming tool](#)

What's up HF,

Today I made a very simple tool you can use to spam your friends. I'll be giving this away to everyone who PMs me for it, in the name of Squad ?

It's very simple to use, just enter how much messages you want to send and the message itself, click the spam button and click on the input textbox from your message program.

[Antivirus scan for SquadSpammer.exe](#) (1 / 56)

PM me to get this ?
