Quote:When the Divine Gate opened, the living world, the heavens, and the underworld became connected, ushering an era of chaos where desires and conflict intersect. To restore order, the World Council is formed. As peace is restored, the Divine Gate becomes an urban legend.

In that world, boys and girls deemed fit by the World Council are gathered. They are ones who aim to reach the gate for their personal objectives. Those who reach the gate can remake the world.

What lies beyond the gate? When they reach the door, will the world change? Will it be the past that changes, or will it be the future?

It was a good show, but everything related to the Divine Gate fucked me up really good. Even some of the powers that were used. Of course, the end hints us that we'll have a Season 2, but when? No idea.

I keep getting this up when I am searching for GATE; it has been making me maybe want to check it out. By fucked you up, what do you mean? Like were they stupid, or emotional to you? :P

There's a lot of emotions in the Anime, but it's the concept of the Divine Gate (what it is, how to reach it, what is needed in order to go through it, etc.)

So Gate is a separate anime from Divine Gate?

Yeah same thing was happening to me aha; you have to type the full name of GATE to actually get a proper result.

I've already watched 3 episodes of this anime after seeing the awesome intro on the internet and I'm pretty impressed so far. It's kind of on hold at the moment as I've got a ton of other anime half finished as well lol.
