Thread: [Sirius-Forum // Earn upgrades and more!](#)

Mikeoxlong - April 18, 2016, 10:45 am

Hello everyone.

We currently have three contests live, these are: the chance to win a usergroup, grab an instant upgrade by simply referring your friends to sign up and finally earning yourself an upgrade to Bronze for posting 15 threads. You can find these threads in our announcement area.

First of all I would like to express that we are not in competition with HF, nor do we intend to be. We are a stand-alone community that welcomes everyone. We're also not forcing you to sign up, we simply ask for you to take a look and tell us what you think.

No point me blabbing on when you can come and look for yourselves!

A pretty nice forum, thanks for sharing.

There are currently 3 contest live.

We've literally just announced our third.

All you have to do is post 15 threads to receive a free upgrade to Bronze.

Forum isn't even worth visiting.

1. The owner was going to sell-out awhile ago.
2. Forum appeared to have been defaced awhile ago too. (assuming your security is low)
3. Basic features aren't even developed correctly, like the Top Posters, etc.
4. Site is loading a bit slow.
5. It seems like the forum is so focused on making money rather than taking in active members.

- The owner did announce he wasn't selling anymore and even if he did, he'd go in minus seeing that the forum has had over multiple grands invested and he sold it for pretty change but decided to keep going despite the offers he got.

The hosting isn't the best right now but that's due to previous encounters and the site has never been hacked, it was more of a trust issue. Don't be silly.

Trust issue? What?

You idiot I have the database and all the files that the owner released after you guys removed his permissions and banned him even though he bought Reality Forum, turned it into Sirius Forum, and invested more than a grand. You guys fucked him over...

You didn't get hacked, you just removed the real admin from the site before you disabled his SSH perms and access to the database.

Forum was good when it was Reality. Now it's a piece of shit.

It was never turned into Sirius Forums, it was merged. Sirius was already around when Reality ended, they just purchased it from them for it to be merged.

I love this forum! I would recommend to check it out.

Bengal purchased RF and merged it with Sirius. Duhh, I know the story. I'm not a member on the site because the admin fucked over Bengal. Literally fraud.

Bengal is stupid. If he's paying for shit, he should make sure he owns the site. I wouldn't say Sirius scammed him, a lot of people didn't like Bengal.

Yes sir.

What's sad is Bengal is a cancer patient going through chemo.

Devixx - May 2, 2016, 5:06 pm

It would seem this forum sold to Sinisterly, lol they all sell to Oni eventually.

No. It hasn't been sold to Oni. Oni claims he has bought it.

Either way, if it wasn't it now has a bunch of Sirius members and posts. I just checked and it's dead, and it looks like any other forum that's about to die after all these changes. Sirius left the same day they merged into Sinisterly, handing over admin/ownership/who knows to someone else. There are hardly any posts, members have dropped significantly. I see no point in being around it anymore.

Basically. Glad he got scammed \$1200.

Sinisterly has >750 posts a day, Sirius is getting 10 (of which is mostly staff).
