Thread: [The Brotherhood | Official Group | General Information / Question Thread](#)

Cryptic™ - April 18, 2016, 9:12 pm

General Information

The Brotherhood was created on June 24th, 2013. We are the oldest group on HF (see footnotes) and we've done a ton of things over the years. One of my most favourite contributions the group brought to HF was the BHSS program. During 2013-2014 The Brotherhood hosted a "Spy Squad" program that worked towards exposing members who were multi-accounters, account sellers, and account buyers. You can view the original recruitment thread [here](#). It was lead by [Connected](#). The program was extremely successful and exposed a lot of people.

It's always been a "family" type of group, at the moment I've allowed for a handful of sectors to be created so that there is a spot in BH for all. The sectors will help out in various parts of the forums. The sub-forum activity has increased by a lot over the past few weeks.

If anyone has any questions/comments just post them below.

*The Red Lions are technically the oldest group on HF but that was given to Nokia2mon2 as a gift and it's more like an exclusive club for ppl he likes.

How many sectors are you willing to bring forward in the future?

Right now I'm approving anyone that is willing to step up to the plate to lead a sector that can make an impact.

The person leading the sector is to make sure all members of the sector are participating and doing stuff, instead of just being a part of the group for the userbar and not doing anything.

If you deem me worthy, I would love to take the position.

Question... when is cancer section coming back?

Cancer was extremely fun while it lasted.

Unfortunately Omni had it treated once the spreading started getting out of control.

The doctors say there's no chance of it ever coming back due to the extreme levels of chemo-radiation it was exposed to.

How established are your current sectors? Should the community be peeking into The

Brotherhood's progress within its sectors?

JohnAnonDoe - April 19, 2016, 3:42 pm

If you're looking for people to lead sectors,
I could run a mobile (android and ios) one.

I have a lot of knowledge in both subjects and am willing to help users.

I'm very curious about the Anime sector. What is it all about? Anime related discussion?

The weaboo's discuss anime / visual novels / etc, and they plan on having anime nights and possibly other stuff, but at this point they're just discussing what they want to do & whatnot.
