Thread: [Hitting down site/people for you | DDoSing for Free](#)

TheChi?f - April 19, 2016, 2:27 am

Well, I am actually quite bored and I thought of this a while ago. So here I am, I will DDoS or "boot off" people/sites for you. Just provide me with the IP or Domain name and I will do it. To get to me, Post the info below or PM me. Only doing for L33t/Ub3r/3p1c users.

Also, I won't be held responsible for any damage or harm you may cause through this.

I would appreciate if you would be considering of taking down the site located [here](#). What a load of baloney, right? Just a couple months ago Google Hangouts used to be free to use, what the fuck are Google Credits? Don't even get my started on the best site of all time ever created so good called [Youtube](#), Google fucked up the comment section. When I search for 'ISIS BEHEADINGS', why are all the pictures blurred? Like what the fuck.

Checking TCP port on <https://check-host.net/> for a teamspeak will always mostly result on a Code
Connection refusedMake a check with simply Ping
Code <https://check-host.net/check-ping?host=188.165.55.167:50403>
