Uhm, \$100 sounds legit for an ebook, but \$25 for it isn't that much considering you can make \$5000 for \$17.

Lol jk, GL WITH SALES!!

Not all have really posted theirs.

Occult - April 25, 2016, 8:12 pm

Just bought this, my honest feedback is that it is a very unoriginal and public method that I have seen before. The ebook is also very poorly made and hard to read. I can see this working but it requires more then "a little bit" of setup.
