Thread: [jailbreaking my Iphone 5](#)

Faceless Man - April 20, 2016, 8:48 am

Any tutorials on how I can do this? Would appreciate a PM ;) Thanks in advance, sorry if this is in the wrong place :P

[HERE](#) is the right place.

Depending on what IOS you're running on your iPhone you can do this. If you have anything over 9.0.2 you're not able to jailbreak.
