Thread: [Skype Resolver + Source \[UPDATE\] V1.1](#)

ShadowBoi - April 21, 2016, 5:38 am

Hey guys ?

Give back some to the community by releasing a basic skype resolver.
works around 99% of the time this only took me 30min so dont complain about the design ?

Please dont try to resell this to people since it's a public method that have been out for awhile.

Steps to get the IP:
Start logging-on

Start the deobfuscated skype

Send a message to the victim

Start SkypeResolver

Enter Username and hit Resolve IP

Send me a PM to recive the sourcecode to the resolver and the resolver it self.
You will also get the deobfuscated skype ofc ?

UPDATE:
V1.0Released

V1.1Made it automatic to rename the file and get the ip.

Replaces the file if you press Resolve IP.

Im not a guy that makes money of public methods ?
But im glad that you enjoy it?

Thinking about making a web api with this will take some time but it would be awesome ?

Top guy, thanks man appreciated

ShadowBoi - April 21, 2016, 12:02 pm

Have sent the files to everyone that have asked so far ?

If you have any questions about how this works just ask or if you have any problems.

Since people likes this so mutch im thinking about doing a upgrade with 100% accurate IP. I was just to lazy to do that

loony - April 21, 2016, 12:03 pm

Please pm me this!!!! Thanks in advance.
