Ecto - April 21, 2016, 11:23 am

Just heard Howard Stern talking about him feeling sick and cancelling tour dates on Tuesday morning. Now he's dead. Life is crazy.

C43S4R - April 21, 2016, 11:24 am

Why the fuck is everyone dying? It's getting ridiculous!

\$cumbag - April 21, 2016, 12:33 pm

Anyone know how he died yet?

Bigbroxy - April 21, 2016, 12:50 pm

I heard he had the FLU and that's what he died from. As time goes on, maybe more will be revealed.

Jeff_F - April 21, 2016, 3:27 pm

Real shame. Great musician and a nice guy. Just way too young to die.

[sarcasm]I couldn't agree more! Who cares he was a Multi-instrumentalist playing all 27(!)
instruments on his "prince" record himself. Or that he still is one of the big inspiration for artists like
D'Angelo, Pharell Williams and Frank Ocean. It was all in the past. Hell we got Justin Bieber or One
Direction, those are artists man![/sarcasm]

Heart - April 21, 2016, 3:44 pm
