Thread: [CSGOJackpot Backpack Script - 100\\$](#)

woahxx - April 21, 2016, 12:19 pm

I am selling CSGOJackpot Backpack script (X2Coins.com) for a 100\$, you will need to run it on a 64 bit debian 7 server. It is fully stable and has loops that retries until success, if withdraw fails it will be put back into your backpack.

Demo: X2Coins.com, CSGOFinish.com

Can provide owner ship, I accept BTC and CSGO skins. PM me
