Thread: [Skype Resolver Source \(Skype Deob\)](#)

ShadowBoi - April 22, 2016, 4:16 am

Hey guys ?

Give back some to the community by releasing a basic skype resolver.
works around 99% of the time this only took me 30min so dont complain about the design ?

Please dont try to resell this to people since it's a public method that have been out for awhile.

Send me a PM to recive the sourcecode to the resolver and the resolver it self you want that aswell.
You will also get the deobfuscated skype ofc ?

UPDATE:
V1.0Released

V1.1Made it automatic to rename the file and get the ip.

Replaces the file if you press Resolve IP.

TODO:Sort through all ips get Victim IP, Microsoft IP and Local IP

Make it quicker and not as laggy

Ideas:Make it web based with an API

Make it able to get multiple victims at once

Add an PIMP design

ioncanon667 - April 22, 2016, 2:19 pm

I Pm you :D

SIM-2878209 - April 22, 2016, 2:39 pm

Can you pm me that? I can't pm :(

ShadowBoi - April 22, 2016, 3:33 pm

Sent to everyone now hope you learn something ?

Delirium™ - April 22, 2016, 5:02 pm

You're not actually giving back anything to the community when you require people to PM you. You're giving something to the selected few who will send you the message.

Vicci - April 22, 2016, 8:45 pm

You are too late. Skype does not use direct connections between non-contact users anymore.

Energy Wizard - April 22, 2016, 8:47 pm

(Apr 22, 2016 08:45 PM)Vicci Wrote: [\[CITE\]](#) You are too late. Skype does not use direct connections between non-contact users anymore. This is true, so I don't see how you could implement this into a website unless you had a bot add the target.

Thank you for sharing a clean (I hope) version of this for free.

Already know this and i have a full written bot that does the whole proces but people are not intressted so will probably just keep this to myself.

LUOIdRentA - April 23, 2016, 4:14 am

Pretty kind of OP to give this out to people who want it.

Delirium™ - April 23, 2016, 7:18 am

Or you could simply upload it on Github and provide us with the source and see if people are interested. Most people won't even bother sending a PM.

eCoLoGy - April 23, 2016, 9:57 am

This simply doesn't work anymore so there's no need for anyone to PM you.

And as others said, if you want to give back to the community then you'd just upload and share.

bufferies - April 24, 2016, 7:23 am

can u send it to me,i cant pm u ;(

Dennamanarjag - April 24, 2016, 1:08 pm

Quote:Post to PM

Users are not allowed to ask members to post on their threads, including PMs, in order to receive whatever they are offering (that is distributed via PM). This includes saying "or" instead of "and". Members may simply post the direct link on the thread instead (if applicable) or ask others to PM them. More information regarding the rule can be found here.

Zero hour - April 25, 2016, 12:42 am

i really would like to have the skype resolver!!!, i want to pm you but it says i need 25 postcounts.

hey can i have 1, i cannot send you a pm i need 25 postcounts so can you please pm me?
