How long have you played?
I just started

Why do you want to join?
Because I juts got into HC and am very interested, I would like to spend my time in a group that is also interested.

Do you have a working microphone?
I do

Favorite play style? (Factions, Creative, Mini-Game, etc)
Factions are a lot of fun, I always wanted to be a part of a sick raid

How active can you be in the sub-forum and on our private server?:
I should be as active as you need, do note next week I will be gone all-week and won't have access to my computer, so if I get in and am not active that is why.

How long have you played?
I've been playing Minecraft since early 2012. As for the HC server, not much as by the time I joined there were already big factions and stuff. I also prefer other types of servers.

Certain skills/knowledge in or related to Minecraft?
I am good with helping servers, as in setting up plugins, doing permissions. That kinda stuff. I also owned a server that had a constant 40+ people for 2 years, so I have a good history with dealing

with situations in servers.

Why do you want to join?

I've been waiting for another minecraft group to pop back up for a while, id love to join to get some more minecraft friends to play with as I usually solo

Do you have a working microphone?

Yes

Favorite play style? (Factions, Creative, Mini-Game, etc)

Mini-game and drug servers.

How active can you be in the sub-forum and on our private server?:

I would be able to put in at least 4 hours a day weekdays and weekends all day if im up for it for both the server and sub-forum.

Have you made any Minecraft related contributions?

No :(

How long have you played?

I have been playing minecraft off and on for around 3 or so years now.

Certain skills/knowledge in or related to Minecraft?

Redstone related setups - ingame

Decent builder (nothing to large).

Basic server management.

Basic plugin configuration.

Why do you want to join?

I would like to join Minecrafters, because I have been looking for a group of people I can play with on a regular base. And you guys seem to be quite active.

Do you have a working microphone?

Yes, I have a working microphone.

Favorite play style? (Factions, Creative, Mini-Game, etc)

I have always had a thing for non-op prison based servers, but I have recently gotten into playing factions.

How active can you be in the sub-forum and on our private server?:

I'm a very active user on hackforums, so I can ensure you that I can be just as active within the sub-forum, along with the minecraft server. If I had to give an estimated time of how long, I'd say 1 - 12 hours/daily depending on the day.

Have you made any Minecraft related contributions?

I'm unsure about this question, if you're referring to a certain server then nothing more than your basic support and what not on the servers I have been active on. Otherwise I have sponsored a few minecraft projects over the last few years.

How long have you played?
A month or so.

Certain skills/knowledge in or related to Minecraft?
Managing MC Servers mostly.

Why do you want to join?
I would like to be a part of a private minecraft community who would also eventually help me get better in the game than what I currently am. This would also provide me another opportunity to be a part of a team and help the team, collectively.

Do you have a working microphone?
Yup. I have a working microphone and a headphone as well.

Favorite play style? (Factions, Creative, Mini-Game, etc)
Creative

How active can you be in the sub-forum and on our private server?:
I can be active on the server even if I may not be able to play much on the server. I am pretty active on HackForums and I can assure you that I will be active on the sub-forums and the group's activities.

Have you made any Minecraft related contributions?

I cannot say that I have contributed to Minecraft community on the HF but on another forum, I was the member of staff on a server and also contributed some bug reports of plugins I can't remember rn.

Thank you for reading through my application.

Certain skills/knowledge in or related to Minecraft?

I know everything there is to know about Minecraft, I'm decent at PvP and prefer pot pvp. I'm pretty good at utilizing youtube to learn anything, usually its for cannoning.

Why do you want to join?

Its always fun to play Minecraft with friends, I quit it because none of my friends play anymore.

Do you have a working microphone?

Yes, HyperX Cloud

Favorite play style? (Factions, Creative, Mini-Game, etc)

I absolutely love factions.

How active can you be in the sub-forum and on our private server?:

I'm a forum junkie and i'm pretty active depending on how my day looks but I usually spend about 6-8 hours a day gaming and things.

I've owned Minecraft ever since January of 2010.

Certain skills/knowledge in or related to Minecraft?

I'm fairly good with PvP, and also I have a good amount of knowledge when it comes to redstone, if I do say so myself.

Why do you want to join?

I would really love to join Minecrafters because this group has been the only HF group that has ever piqued my interest, as Minecraft has stayed with me for so much of my life. And for the sake of honesty, one of my goals on HF is to be a part of a user-owned group.

Do you have a working microphone?

Yes I do.

Favorite play style? (Factions, Creative, Mini-Game, etc)

Probably Minigames, but I do enjoy playing Factions and some types of MMORPG servers, like Wynncraft.

How active can you be in the sub-forum and on our private server?:

Well I usually spend most of my day playing Minecraft and HF, so pretty active.

How long have you played?

I've known about Minecraft since the very first betas and had friends that have played it since then, but I started when it came to the Xbox 360, so I've been playing myself for around four years.

Certain skills/knowledge in or related to Minecraft?

I can craft pretty well, haha. There's not a lot of skills needed for the console versions. I have gotten every single achievement for Minecraft. Twice. Now they keep adding more so I have to do it again, haha. I am most notable for digging huge mines on survival mode.

Why do you want to join?

I used to be in many Hack Forums groups, but have since lost interest as no group has made me feel like it's worth my time lately, but I like the idea of Minecrafters. It's a group centered around an interest, in this case Minecraft, that is shared among many users including myself. I want to be able to join a group again that brings users together and that really makes me feel like I'm enhancing my Hack Forums experience. I think Minecrafters can accomplish that.

Do you have a working microphone?

I have a working Xbox 360 and Xbox One microphone, yes. I also have a few broken ones, lol.

Favorite play style? (Factions, Creative, Mini-Game, etc)

I like survival mode, usually on peaceful. I like creating things mostly, but I like the challenge of having to mine all of my resources, that's why I rarely play on creative mode.

How active can you be in the sub-forum and on our private server?:

I plan to be insanely active in the subforum if there are topics there that genuinely interest me, which I think there will be. I cannot use the private server as I will be on the console versions, however.

Have you made any Minecraft related contributions?

Not on Hackforums, no. Sorry. ? There's not much of a console Minecraft community on here.

--

Thanks for the opportunity to join the group, Realizm. I'm legitimately really excited to see how this group turns out, regardless of whether or not I am accepted. Best of luck running it!

Since August 2011 (5 Years Roughly)

Certain skills/knowledge in or related to Minecraft?

I have a lot of knowledge with Plugins, Building and General game knowledge about cannons and raiding and very skilled in PVP and Raiding.

Why do you want to join?

I'm new to HF and I'm looking for somewhere I can fit in and be able to talk to people that are able to talk about the stuff we share interests in and be able to play some minigames or something with people and not be pushed down by people who think Minecraft is a kids game and needs no skill. My main reason to wanting to join is to be able to make new friends to play Minecraft with and bring my skills to the table and show people it's more than just building with squares.

Do you have a working microphone?

Yes, I have a Razer Seiren Elite Gaming Microphone

Favorite play style? (Factions, Creative, Mini-Game, etc)

Factions, Mini-Games and Prisons

How active can you be in the sub-forum and on our private server?:

I will be very active in the sub-forum with either helping people or learning new things. I would love to play the server as I am currently just playing the same server and when you are a donator and in the most OP faction it tends to get boring when you can split any base and have too much money that you don't enjoy it so I would love a fresh start and play something new.

Have you made any Minecraft related contributions?

I'm new to the forum and I haven't posted anything yet that contributes to the Minecraft section but I'm going to soon start working on coding a Minecraft Client which isn't for cheats but it will be something which has almost all mods pre-installed in to it and when you load the game you can choose which mods you want enabled and they will all be already there preloaded if that makes any sense.

I first joined midway through March.

Certain skills/knowledge in or related to Minecraft?
I've played Minecraft for a stupidly long time, ever since Minecraft Classic came out and I've played it ever since. In that time, I've run multiple successful servers, and obviously, some which haven't been as big as a success as others, generally I've just been quite involved in the community as a whole.

Why do you want to join?
I want to be part of a community based on a game that I've played for years. Along with that be able to talk to people who also love Minecraft and perhaps be able to increase my knowledge in which I have, along with that be able to help other members learn and become better players.

Do you have a working microphone?
Yes, I have a working headset.

Favorite play style? (Factions, Creative, Mini-Game, etc)
Factions, it's generally the only game mode in which I've fully enjoyed.

How active can you be in the sub-forum and on our private server?:
I can be active be fairly active on the server but as with anything, IRL takes priority. I am also really active on Hackforums so being active on the sub-forum won't be a problem.

Very very active. Around 7 hours a day and private server I can be on every day!

Have you made any Minecraft related contributions?

I used to help out a lot of people with starting the servers. I normally helped with survival servers

and they was really good :) I have built a few things for some members as well like shops/buildings and other cool things :)

Since Alpha 1.2.

Certain skills/knowledge in or related to Minecraft?

Building/Design & PVP are my main skills. I also used to run a few servers.

Why do you want to join?

It would be amazing to get into Minecraft again with a whole bunch of experienced players, and this group seems cool so why not play with other people?

Do you have a working microphone?

Yes.

Favorite play style? (Factions, Creative, Mini-Game, etc)

Factions.

How active can you be in the sub-forum and on our private server?:

I'm on HF for over 6 hours everyday, so very active. I'll hop on the server sometimes for sure, it would be interesting to check it out.

Have you made any Minecraft related contributions?

No current contributions, but I discovered something cool back on an earlier update and posted about it: <https://hackforums.net/showthread.php?tid=3755283>

4 years, give or take. I started when 1.1 first came out.

Certain skills/knowledge in or related to Minecraft?

I know how to run servers, also know quite a bit of java.

Why do you want to join?

I'm going to start playing HC, would be cool to have some teammates when I start out from the group.

Also, I've wanted to be in a group on HF for a while and never seemed to fit into any of them except for now.

Do you have a working microphone?

Yes.

Favorite play style? (Factions, Creative, Mini-Game, etc)

RegFactions/HCF, playing solo or with one or two friends pvp'ing, or building traps and killing players with them.

How active can you be in the sub-forum and on our private server?:

I have lots of free time so I could probably log on/post everyday.

How long have you played?
I have realistically been playing Minecraft for around five years.

Certain skills/knowledge in or related to Minecraft?
I have decent building ability as well as a decently extensive knowledge of setting up the basics with plugins. A complete knowledge of a quite a few plugins also could be included.

Why do you want to join?
I would love to have the chance to join a group of other users who still enjoy the game and maybe be granted the chance to join some interesting projects that I might not otherwise have the opportunity too.

Do you have a working microphone?
I do have a decent microphone.

Favorite play style? (Factions, Creative, Mini-Game, etc)
I personally sway quite a bit in the direction of Creative and Factions servers. I personally like to be able to mix the two and create content that can be used in a team environment. I have managed factions servers for a decent amount of time.

How active can you be in the sub-forum and on our private server?:
I would find it realistic to want to be as active as possible in order to help try and return the old nostalgic feeling that Minecraft once had. I fear that this once magical game is starting to lose a bit of its luster and I really would adore a chance at finding a way to keep its value. :"

Have you made any Minecraft related contributions?
I suppose that I am not quite sure. On a much lower level I have of course assisted quite a few servers over an extended period of time and I have of course created many builds that I personally find quite detailed and enjoyable. As for something on a larger scale, I do not believe so.

How long have you played?

Before Minecraft classic hit version 0.30, very early in the game's development.

Certain skills/knowledge in or related to Minecraft?

I'm a really great battle planner and a somewhat adequate PvPer. I know a lot about Minecraft; but my weakness is that my information is concentrated on the early days.

Why do you want to join?

I've never been part of a group on HackForums and I've finally found one where I feel I can fit. I love Minecraft a lot and have fond memories since 2009 (until now) of it. It did play a big part in my life as it helped me overcome depression. Joining this group will allow me to converse with other Minecraft fanatics as well as allow me to discuss various things in the Minecraft world with an elite group.

Do you have a working microphone?

That is the norm these days, haha. I do have a very good working microphone and can guarantee my voice isn't total shit. I've come past the stage of squeaking so I sound like any other guy over the age of 15/16.

Favorite play style? (Factions, Creative, Mini-Game, etc)

Favorite play style? I'd say survival-anarchy, not the type that's similar to 2b2t, but as seen above, the type that's similar to CivCraft since that is my favorite game mode.

How active can you be in the sub-forum and on our private server?:

Sub-forum? I would post almost everyday as I always go on the HF Minecraft subforum.

Have you made any Minecraft related contributions?

I've made a few worlds as well as stories in 2011, but those are edgy. In terms of these days? I've released 1 exploit for MineZ as well as some theory, but that's it, haha. I'm not that amazing in terms of contributions, but I do like to surprise people. I write literature quite often and I might release a story every month or two should I get a chance to join this prestigious group.

I mean, you guys have no reason to accept me, if you're looking for someone who will release exploits and focus only on hacking, I'd have to say that sadly, I'm not your guy. If you're looking for someone who's cheerful, always in a good mood and loves to discuss various topics related to Minecraft as well as do creative pieces; I believe I'm your guy.
