Thread: [\[RE-RELEASE\] Free Premium Grammarly](#)

Guardians - April 22, 2016, 1:07 pm

Hey Guys,

ACCESS CODE HIT QUOTA, WILL CHANGE WHEN I GET MORE <3

I'm tired of seeing people sell Premium Grammarly accounts for a ridiculous price of like \$10-15, even someone is selling an account generator for \$50..

So I did research and found a public method to obtain Premium Grammarly accounts on YOUR OWN BRAND NEW ACCOUNT, so why should people spend money on them?

1. Go to Grammarly's Sign Up (old) Page

<https://ed.grammarly.com/register/signup/features/?edu=true>

2. Now, you will see some columns. Fill them with your information.

3. On the following page, you will get an 'Access Code' box that will be optional. Just copy and paste one of these keys into that box:

PM ME FOR BRAND NEW CODE ?

4. Now, open your account. It is not asking you to upgrade your account, which means, it has been upgraded to premium for free. If you get any problems using the one of the code above then:

- Clear your browser's history and cookies, and try again with another email.
- You will notice that it does not say premium at the start, what you do is simply install Grammarly plugin to your browser!

- I advise you to use CHROME since it is kinda broken on Firefox:

<https://chrome.google.com/webstore/detail/grammarly-spell-checker-g/kbfnbcaepfbcioakkpcpgfkobkghlhen>

YOU CAN USE THIS ON A CURRENT ACCOUNT TOO! If you want more accounts, simply just go to incognito mode and make a new account using the technique above and enjoy your free Grammarly premium account!

I've tested this out myself, and it worked early this week, so Enjoy HF users ?,

I take no credit for posting this, as I found it on another forum.

Also, if I am not allowed to re-release this, just let me know and I'll take it down ASAP (thanks to sam\_03 @ #).

Here is Public Method :-

1. Go to Grammarly's Sign Up (old) Page

Haha, appreciate the rep :)

Enjoy it, it is by far the most useful application on my computer, especially the double-click dictionary feature. (if you download the extension)

If you took one second to read my thread, you would see that other members posted this as well. Then you would have noticed that the method you just provided is barely working. Why? Because Grammarly now vets any users that use the codes (they are school/orginazational codes) and the teachers or head members of it DELETE any accounts that they have no idea who they are.

Sure, use the above method - you'll have an account for 2-3 days TOPS and then get IP banned from Grammarly.

Quite honestly, this is disgusting that you are too ignorant to look at the first page of posts on a thread before trying to seem like Captain Hero.

TO ALL THAT WANT TO USE THIS METHOD: have fun using the account for 2-3 days and then getting IP banned from Grammarly for using school registered codes (which they pay thousands of dollars for) without any permission. You might even get in trouble.

EDIT:

GO AHEAD AND USE OP'S PUBLIC METHOD, THEN HAVE FUN GETTING IP BANNED IN 2 DAYS ?

Do you have ANY proof showing that they get banned after 2-3 days? I've had mine for over a month. You keep posting the same thing everytime a method is posted, yet, for some STRANGE REASON, no proof to back it up. If you can show it, I'd be more than happy to close this thread up :D.

You have to make a brand new account, follow the first link and sign up. On the second page, there should be the option to put in an "access code".
