Thread: [Portforwards NetWork Utilities](#)

**Alphapanda013** - April 23, 2016, 6:24 am

Does anyone happen to have a full version I can use? I simply can't port forward. I have tried but I just can't do it. I think paying \$38 is ridiculous and would love if someone here could help me out! thanks :D

Any reasons on why you cannot portforward?

Also this should be in the Windows Section I believe.

I wasn't asking for a pirated version, I was asking for a full copy that I could use if someone had one....
