KUDATOR | The #1 Faucet Rotator

Hey, hey HackForums!

So today I had nothing to do and I decided to create an Faucet rotator. You can check it out [HERE](#). After playing around with it for a few hours, I actually started to like the idea of owning an faucet rotator and I have lot's of ideas how to improve it, what to add etc.

The faucet list is updated once a week on Monday.
Currently - 50+ Faucets are rotating.

How it works?

Simply click the NEXT button at the top to start. You'll be taken to the first faucet page where you can collect your free Satoshi. Once complete, click NEXT to goto the next faucet and so on.

I am going to work on thread a little bit later.
Cheers ?

legit, used this for a little while now and It works perfectly

Marketplace Buyer - April 23, 2016, 11:23 pm

Pretty good rotator. Used it a few times and everything is running smooth.
Goodluck with running this all, op.

(Apr 24, 2016 07:45 AM)Suboptimal Wrote: [\[CITE\]](#) Intresting concept.

How much can you earn from all faucets in total? A dollar?
Approximately.
Later I will add more and more faucets tho and probobly will make a database on how much can you get from each of them.
As well I have planned adding own faucet and possibly dice game.

rogelio11 - April 24, 2016, 1:35 pm

let us know on how to get started once the rotator is up and running :D

Krokoudilz - *April 24, 2016, 2:49 pm*

Thanks, i go to test you're Kudator :)
