Thread: [What will you do on \\$1,000,000,000,000 BITCOINS?](#)

Puffer Fish - April 24, 2016, 6:11 am

What if someday blockchain accidentally made you rich bitch and give you \$1 Billion BITCOINS but you cannot exchange it in real cash, What will you do?

- Im going to donate it on this forum, Make my own money company like paypal, Buy some botnets, Run some big whooping bussiness, Make a 1 BTC giveaway, make my own gambling site, and i dont know, Maybe buy PayPal? I can do anything.

Edit: I will also try to gamble 5 BTC in bustabit? ;)

Do you have any clue, in the god damn world, about anything? Oh my god this is so stupid I don't even know where to start.

Why, first of all, would he sell a website for \$100,000 that he has spent about 9 years on and has easily made a lot more money then this amount from. Have you ever heard of free cash flow x 3 for the evaluation of a business? Omni's free cash flow x 3 over the 9 years would make this number look so stupid. Even if it just went on the last 2 years, he would still make your \$100,000 look stupid.

Second of all, why do you reckon he would do that? I'd say, without knowing for sure, he would easily make this figure and a lot more every single year. You think he is a retard? Well, he isn't, sorry to break your hopes.

Anyways, please learn the value of something properly and how money works before posting like a potato.

I don't remember honestly. All I remember is Omni almost selling HF for 15k because the forum was hardly making any money for him monthly, but decided not to when the buyer said that he will remove ub3r and 1337 and make it blackhat only forum or something.

I love these threads because I see a little deeper into all you members. Half of you hopeless nerds want to buy HF Imfao oh god go to therapy. Omni also stated that he's been offered quite a bit of money for HF and he's declined. I don't remember if he said he was open to selling it.

I'd spend it all on some physical object that keeps it's monetary value then sell it for cash. Or buy a company and resell it for about 900 mil. I hate having large amounts of money in BTC, cash is easier.

After I have 900 mil in my bank account, I'd give 100 mil to my parents for raising me, 50 mil to each of my two brothers, 100 mil split up between my cousins. Buy myself a house in the same area I live now for about 6 mil, then enjoy my life peacefully.

But let's get real these threads are so dumb, stop dreaming about shit and go do it.

Rich Uncle Pennybags - April 24, 2016, 11:54 am

I'd buy drugs n be dat nigga out here in these skreets

ya3goobs - April 24, 2016, 12:39 pm

I would really invest in some companies. Buy my dream house. And gamble a bit.

Roytoy - April 24, 2016, 12:40 pm

I will probably move to the US and start a new life.

SavageAF - April 24, 2016, 12:41 pm

All these people talking about buying HF I think Omni was offered a 7 digit offer before, so like 200k isn't worth it.

Convert literally every single bitcoin as quickly as I can before the value of bitcoin decreases.

I bet I'd only be able to sell 100 Million bitcoins before the value decreases to pennies. I'd then sell the rest by opening up an automated online shop.

Can't convert to cash?

I'd buy everything from every single store that accepts bitcoin

First i'd buy all the HF awards so I could have a large E-Peen. After that I'd be on the onion buying hella drugs.

Without exchanging them you pretty much are rich forever. I don't think its possible to spend it all unless you do massive give aways and donations. If you treat it like real money and buy something when you want that is.

Zelix - April 26, 2016, 12:24 am

I will pay someone \$10 million to give me advice on what projects I could/should buy, and how to launder my money. After I bought a lot of companies to make sure I will be making whitehat and legal money, I will donate at least \$200 million to poor countries and sicknesses.

When I'm sure I am making legal money with my companies, I will buy myself a lot of cars, a house, and give my parents and my family money too. After I did that, I will buy like \$100 million in Gold, and save it on a safe place, cause gold won't really change in worth and it'll save me if something goes wrong. Or if banks/(blockchain) go bankrupt.

And then.. knowing that I'm rich as fuck and I am still getting money 24/7 instead of only spending it, I will live a good life, and make sure my family will live a good life.

Oh and I will buy every fucking product @the deepweb to resell it and give them as a gift to friends or whatever. If you got \$1 billion, why not make someone else happy?
