Which wallet is the best for a new user to Bitcoin to use?

KingCapo - April 24, 2016, 12:53 pm

<https://blockchain.info/wallet/>

7even - April 24, 2016, 12:54 pm

I use Xapo. It has a really nice interface.

minimalist - April 24, 2016, 12:54 pm

Blockchain.info if you want an online wallet (less secure but more accessible & convenient), Multibit if you want an offline wallet (more secure but less accessible and convenient).

I use Multibit.

?Kill? - April 24, 2016, 12:56 pm

I use block chain <https://blockchain.info>

I like it because I can access it from everywhere

Peptide - April 24, 2016, 12:57 pm

Blockchain is the best and fastest and it has a nice beep to it when you send and receive payments.

I use Multibit.

This^ I just blockchain if it's not going to be in my wallet for long or if it is small amounts. For larger amounts I use an offline wallet like Multibit.
