Maybe he did it on purpose to beat the predictions?

- 1: Wolf
- 2: Soul going into wolf?
- 3: Melisandre?

But eh, I don't think it's anything. Maybe just one of them "Who the fuck did this" look?

That's actually pretty good. I think this means his soul was put in to Ghost by the help of Melisandre.

That looks alot, as Hellsing said, like a wolf and Melisandre.

I think either Jon will live through the wolf, or Melisandre and him will somehow merge.
