Great ebook, I couldn't be more happier about it.

This is one of the few ebooks that actually work in HF! I am absolutely stuned with the results, I was not expecting such a great results!!

Evan was always there to help me, he answered all my silly questions, he helped me from the beggining, he is a great guy. I recommend his ebook to everyone.

His eBook is a must have! It's worth the money.

(Feb 25, 2016 10:53 AM)~HF~ Wrote: [\[CITE\]](#) Vouch for this ebook! The methods are quite unique and the first method is sure to work and require very little brains/work to do. The second method however does require some work and all depends on how much work you put in. But the ebook is very unique, can earn you money easily. Lastly I would like to say this is one of the most detailed

and well set out ebook i've reviewed and i've done about 100 ebooks.

Good luck with sales.

(Jul 20, 2016 09:56 AM)V For Vendetta. Wrote: [\[CITE\]](#) I have received a review copy for the method. My review is as follows:

This 17 page e-book is filled with information on how to monetize. It includes 2 methods to maximize your earnings, which are not related to each other, hence giving you more options to maximize. I found a couple grammatical errors in the e-book, which do not hinder the intended methods in the e-book. I have not seen these methods anywhere, and will be using method #2 to earn, as it is more suited towards my skills. This method does seem legitimate, as I checked it out and it looks like it works well. I know for a fact that method #2 works, but cannot attest to the legitimacy of method #1, as I am not an avid social media user. The method however involves a company that is famous, hence I would deem it legitimate. An investment is not required, but can greatly scale your earnings. This e-book should make you money easily.

This is the most professional eBook I have read from HackForums.

Methods in here I have never seen before except one but it is a very great method not much people know about.

I highly recommend to buy this eBook because it's a very professional, great methods, and unique one.

Good luck with sales man!

(Feb 24, 2016 01:09 PM)Frenzied Wrote: [\[CITE\]](#) Okay first glance I have on the eBook. I've got to say I'm very impressed. Like honestly I've done tonnes and tonnes of vouches before insisting on how good methods were, but I really didnt mean it that much. And honestly, this eBook looks amazing! Unsaturated methods, easy to read and overall great content. Honestly, to me, when I wanna buy an eBook, I look at vouches. If they say that they're gonna try it out, then I buy it. And this is one of these methods, where vouchers actually try out the method and report with their earnings..

HUGE Vouch for this eBook, I'm coming home next week and I'll try the methods as soon as I can. So freaking happy haha.

(Feb 24, 2016 03:58 PM)Kinguin Wrote: [\[CITE\]](#) I've received an vouch copy of this eBook, and I'm quite impressed. After reading through all the 34 pages of solid information, I realised how good, and how both unseen and unsaturated this method is. Couldn't get any better.

There's a few well explained methods, and you can choose the method that fits you the best, which I think all of them will.

I will give this a 10/10, as it's so unseen, like I've never seem those methods, or even thought of them before.

It's easy to read, and EvanC is providing you with absolutely everything you'll need to know. These methods also has a great potential, and it clearly has my vouch!

Will update with payment proof once I get some.

Personally i've never seen this methods before, and i think they're both great.

You don't need to invest any money on them and the first one is just awesome, and requires no effort to set it up!

The second one is a bit more complicated and requires time to set it up, but at the end of the day you will still earn money easily, and you can always do method one as well as method 2 to earn a decent amount on money.

Last but not least i would like to say that this eBook is very well written and noob friendly, anyone can start using this methods.

I higly recommend to buy this eBook because it's very unique.

Good luck with sales.

vouch for my boy Evan. great method

V For Vendetta - July 20, 2016, 9:56 am

I have received a review copy for the method. My review is as follows:

This 17 page e-book is filled with information on how to monetize. It includes 2 methods to maximize your earnings, which are not related to each other, hence giving you more options to maximize. I found a couple grammatical errors in the e-book, which do not hinder the intended methods in the e-book. I have not seen these methods anywhere, and will be using method #2 to earn, as it is more suited towards my skills. This method does seem legitimate, as I checked it out and it looks like it works well. I know for a fact that method #2 works, but cannot attest to the legitimacy of method #1, as I am not an avid social media user. The method however involves a company that is famous, hence I would deem it legitimate. An investment is not required, but can greatly scale your earnings. This e-book should make you money easily.
