Thread: [How to make your Windows OS from Non Genuine to Genuine](#)

Juan The Young Chef Don - April 30, 2016, 2:06 pm

Alright Windows Users for all you people who have had the issue of you're windows isn't genuine or you have 30 days to activate it this is for you people.

1. Download this tool called removewat
<http://removewatdownload.com/>
2. Install the tool then click removewat
3. Restart your computer
4. Have fun with you fully Genuine Windows copy!

A Little Bit About RemoveWAT

When Microsoft launch windows 7 they introduce new technology called Windows Activation Technology (WAT) in 2013. This method were really hard to crack to software crackers. So in the meantime TeamDaz Development team start to work break this new activation system. After 3 months they were successful and they develop a tool for just normal users. Because all of computer users do not have developed knowledge. They name it as "Removewat".

The Removewat is the one and only software break Microsoft WAT technology. So before trying other activators you should try this tool. And also Removewat provide you genuine windows 7 and 8 activation. You can update windows 7 without having any problems.

Telstra - May 1, 2016, 12:27 am

I have always used this whenever I do fresh installs of windows. Great share.

Judicious? - May 5, 2016, 2:16 pm

It's better to just winload in my opinion. But thanks for sharing.

Gt403cyl - May 6, 2016, 1:56 am

This has been reported, not by me but it is against the forum rules....

So you're saying you were going to report it though? L

Gt403cyl - May 6, 2016, 5:51 am

Yeah I was but someone else did before me.....

This falls under:

"Disallowed Black Hat Activity

Hack Forums does not tolerate even the slightest discussion of black hat activities as listed here. Discussion of any kind on these topics will result into issuance of a warning. Certain cases will warrant a ban as Staff deems fit. "

Quote:Product Keys and Unlicensed Software

Product keys, key gens, serials and software cracks are not allowed. This includes the selling, trading, or requesting of any illegal unlicensed product keys. HF is not a warez forum and we will no longer tolerate our site being used as one.

Just like no one has ever talked to you about your Hindi signature, which too is against the forum rules. Better be safe and remove it before some little wimp reports your profile for multiple offences.

rheyniel_hzt - May 15, 2016, 2:22 pm

Thanks for this brother :)

Buckeye Legion - May 15, 2016, 3:31 pm

Will be trying this method out in my next computer build.

(May 6, 2016 01:56 AM)Gt403cyl Wrote: [\[CITE\]](#) This has been reported, not by me but it is against the forum rules....

You've been in here long enough to know better.

That original post doesn't fit in any of these listed below:

Product Keys and Unlicensed Software

Product keys, key gens, serials and software cracks are not allowed. This includes the selling, trading, or requesting of any illegal unlicensed product keys. HF is not a warez forum and we will no longer tolerate our site being used as one.

It's just a link to an outside source, therefore, permissible in HF.

Stop trying to act like staff and use your brain cells if you have any left over.

EchoTroop - May 15, 2016, 7:47 pm

Thanks! I will try this out!

ThatBlackDude - May 22, 2016, 6:18 am

If im correct this actually dosent make it genuine but just removes the watermark.. But then again windows dosent have any difference when genuine and non genuine the only difference is the bookmark so its still an amazing tool obviously!

Mr. Robot - May 22, 2016, 6:21 am

Pretty sure you can just run "slmgr --rearm" - not sure if working on windows 10

DeathAdder - May 22, 2016, 11:44 am

Yo could someone help me, I can't get it to work. I just upgraded to windows 10.

Juan The Young Chef Don - May 22, 2016, 2:12 pm

(May 22, 2016 06:21 AM)Mr. Robot Wrote: [\[CITE\]](#) Pretty sure you can just run "slmgr --rearm" - not sure if working on windows 10 Sometimes you can't find it. Plus that only re arms it for 120 days and up to only 3 times. This completely takes out the problem of re arming.
