Thread: [PPI & FB ads ? \(or IG Ads ?\)](#)

Mad™ - May 1, 2016, 7:17 am

Hi,

I'm on CPAGrip and made like 10k with CPA Offer (Pin Submit) targeting french with some niches, but right now i want to make more money using PPI and targeting US/PH/UK/AU.

Currently i use FB ads for my Pin Submit offer on french people (0.003CPC, 40\$ per day inveted for 150\$ benefit), and i don't know if i can use fb ads on PPI because PPI is like 0.15\$ to 0.40\$ per lead, pin submit are 15\$ to 20\$ so i don't know if i will win money and don't lose money.

For my PPI offer, i use OGAds.

I tried FollowLiker but all my PVA accounts got banned and i prefer work with paid traffics

Someone can help me ? (If someone can help me on making money on PPI, i can help him making money with CPA offer targeting french people)

Thank you in advance

I'm targetting french people too, how about you stick with Pin Submit but target other countries than france?

Because france isn't the only country using pin submit

I target France, Switzerland, Australia, Luxembourg, Italia, and some other countries with Pin Submit not only french people ^^

My traffic is 90% mobile and 10% desktop, and i think i can get more people with PPI because on my traffic i got 3000 views, 1500 clics and only 15-20 leads, for me the rate are low even if i get money

That's why i want to try PPI offer, it's more easy for user in my mind

I am currently using CPA offers "cpagrip network"but have tried PPI as well, I am not happy with the result if i still remember.

Using CPA :

Just today i got 99 views 16 clicks 1 leads made \$1.64

Past 3 weeks 1,582 views 310 clicks 13 leads made \$19.65

Using PPI "ogads.com Network":

1 Month statistics

193 clicks 7 conversions \$1.95 Payout

Pretty bad

Did you use proxies when using followliker? If not, that's probably the reason your accounts got banned.
