Thread: [Cartoony HF Avatars, Signatures n' Wallpapers](#)

Novica - May 1, 2016, 9:28 am

I'm not sure what happened to minus.com, but all the images I had uploaded on that website are gone, and because of that, my old graphic resources thread is pretty much useless. I realized that about a month ago and I've since decided to make a new thread.

In this thread you will find 125 cartoony avatars made .for .Hack .Forums.
On average, I've spent about 20 minutes per avatar, and everything in this thread has been made from scratch. That's why there's only .125 .of .them.
(All of the can be found in Novica_toon gallery located [here](#))

Beside avatars, there are 5 signatures(for now).

You'll notice that there are some empty posts on this thread, -and .that's because I plan on adding more and more avatars/signatures/wallpapers to this thread on a monthly basis.

What's wrong with his post? Cancer is nothing to joke with so don't do it.

Effexion - August 5, 2016, 9:39 am

Would have been awesome if you did that biker cat for me lol.

These graphics are second-to-none in their style. Everything Novica produces is eye-porn. Novica sort of signs his work without writing his name anywhere. The simplicity, the perfectly executed shading and the easy-on-the-eye stlye speaks Novica from the off.

Really? It doesn't look messy to me, But sure I'll pm him.

Indeed, my mom has cancer. But I don't really care if people joke with cancer as long as they know what it is and how it affects people ?

But atleast he edited his post so no hard feelings.

AvessoVision - December 13, 2016, 5:04 am

Rocking one of yours right now. Loving this cartoonish simplistic style. The soft shadowing really

gives it that needed depth, but still remaining somewhat flat. Digging them and great job on them. Should do more of these.

Cheers.
