Thread: [OG Sports MLB Betting Group | 2nd Season on HF | Limited Time | \\$7k+ Profit | VOUCHED](#)

r3tsquad - May 1, 2016, 11:41 am

I have been MIA for a little bit with the HF betting scene but I've just been busy and fucking around with DraftKings. I have now quit my job and decided to fully dedicate my time to this MLB season as last one was a major and I repeat major success for myself and whoever followed.

Some of my previous betting threads and groups on HF:

<https://hackforums.net/showthread.php?tid=5170625>

<https://hackforums.net/showthread.php?tid=5012873>

<https://hackforums.net/showthread.php?tid=5079838>

What sports are we betting on r3t?

I'm focusing on MLB right now for the sole purpose that there is many games a day and it is my strong suit.

How will we be given your predictions for the day?

I will have a skype group where every member will be, this is where I will post the daily predictions.

What makes you better then anyone other betting group?

If you go through my previous threads you will see the vast experience and knowledge I have with MLB and betting in general. I have even had other group leaders join my group. I'm also focusing on my best sport right now so the win % will be much higher.

Is this service available world-wide?

Yes, no matter the country you can participate.

How do I see your previous bets?

I have posted a few below and many others should be in previous threads (Can't fit all pics)

Entry:

\$40 BTC (One Time Payment)

- Includes access to daily bets
- Websites to bet on
- Any help you need to get started
- Fun betting environment

Today's first bets 5/4/16

Please feel free to PM/Post any questions regarding the group, I'm always glad to help!

r3t tends to dissapear a lot. He actually made a time frame for his groups the second time around but he just stopped posting 20 days before he listed the group would end.

He used to be my go-to handicapper but with his volatility in posting bets especially after the first few weeks, I would use someone else tbh

My first group was ran for well over 5 months and you are correct in the statement that the second group I left about 12 days earlier then planned. I had some very serious family issues and was not even in the states. Even though I had only missed 12 days of the 2 month time frame I have reimbursed everyone that has contacted me from that group with a spot and apologized. Thank you for the compliment though. ?

Basically you send BTC to an address that the bookie tells you to send it. Most sites you have a personal wallet on your account, but sites like direct bet have you send every time you want to make a bet.

<https://www.directbet.eu/> - no sign up required but you can find better odds on the other sites below
<https://nitrogensports.eu/> - my personal favorite. Has eSports betting and teaser bets, but has limited betting options (e.g. Both teams to score in soccer)
<https://www.cloudbet.com/en/> - Probably the best bookie to use if you want to try different bets other than total points, ML or spread. Best bookie for soccer out of the three.

You probably don't know what some of the terms mean, but if you join the group r3t can answer any questions you have. I was extremely confused on my first time betting but over time you start to understand a lot more and r3t really helped me out back then. You can also PM me if you have any other questions.
