Thread: [How do I view the posts I've made in a section](#)

ze-slade - May 1, 2016, 2:13 pm

For example I want to see all the posts I've made in "Melody, Harmony, Rhythm, and MP3" to try and find a song I liked before. How would I exactly do that I only have 16 posts there and they're from awhile ago so going back and trying to find it would be rather hard.

I do not think there is a link that brings to you those specific posts unless you use the search function.

go to profile and then click find all posts. then in the 3rd column over click at the top where it says "Forum"

then u can find your posts in that section

enjoy

Most effective is to use Search page.

<https://hackforums.net/search.php>

Enter your username and the section. You can choose to view results as either posts or threads.

Lawsuit - May 1, 2016, 10:55 pm

There's an userscript that adds this. I think it's HFES.

Just use the search feature? Isn't that the easiest method?
