Thread: [Free CSGO Double Script \[LEGIT\] \[EVERYONE\]](#)

Mahon3 - May 2, 2016, 3:03 pm

Yo! I've been using a pretty good damn script by M0le. Too bad most of people use it to scam with it.

I have edited some of it so it works a bit better. I do not take credit for the script. But its 100% legitmate, and I have earned a few thousand every night. -

Its bulletproof if you configure it correctly.

BTW: You need tampermonkey on Google Chrome for using it.

I am willing to help you setting it up so it works smooth for a bit double coins.

Spoiler [\(Click to View\)](#)

There is a /send part, but don't worry. It doesnt steal ur coins, it just send a little amount of tip :) - You can easily remove that if you don't want to send tip.

Feel free to PM or write here if you are interested.
