Thread: [Original XBOX LIVE 2 Month Free Trial](#)

Wolverine - May 2, 2016, 4:45 pm

Just found a unused Original XBOX LIVE 2 Month Free Trial in my Halo 2 disk box. How much do these cost now a days? looks rare to me. Can they even be activated?

Probably not going to get a response because this Membership is as old as you 12 years old's on here.

I am not 100% but I think the code is useless and did expire long ago.

The cost of it if working would be the price of \$20? maybe not 100% don't quote me on this.

It could or maybe is a collectable item.

Post pictures of it. I had one a while back and they were so dope looking.

No harm in trying to use the code. I doubt it's any good though. Those had expiration dates on them if I recall.

I really could use this hmu man

edit: lol halo 2 box? ya that's def for the original xbox, it won't work

You probably wont get much if anything for it. Id say keep it for memories :)

I would throw that redundant piece of shit away. There is always Google images for paper memorabilia.

It's as rare as the bottom of your shoe, no value.

But it is good that you came here about an appraisal, but sadly don't think it has any use.

I had one a while ago, I used it. But if it can't be used I would suggest you keep it just as a collectible. Not to many people have come across these codes !

Man I got so many 2 month trials out of Halo 2 cases. I'd go to Hollywood Videos and Blockbusters around here. I was even nice enough to ask.

Scored so many. I had tons of trial accounts. Several accounts that are long gone that were leveled up in most playlists to at least 30, some even 40+.

I played WAY too much Halo 2. Haha.

Were you on when the servers went down in 2010? I tried to stick it out like others did but got a disconnect minutes after midnight. I still have my Halo 2 and an unscratched 2 month trial. I used over a dozen of them on separate accounts in 06 and no lifed that shit and continued to do so until 2010 in April when Microsoft killed OG Live. didn't even get a 360 till late 2010 because I refused to move on for some time after lol.

But anyways, OP: It is useless. They expired in early 07. I would just keep it like I kept mine.

Then my internet went down for the next 2 days. =\
