Quote: Teenage romance is never easy, but it's especially difficult for second-year high school student Hase Yuuki. The girl he's fallen for, Fujimiya Kaori, is beautiful and kind, and was once the most popular girl in school. But now, she spends all her time alone, and the reason why is stranger and more painful than Yuuki could ever have imagined.

Fujimiya Kaori has a secret: due to an accident she suffered in middle school, she loses all her happy memories at the beginning of the week. As a result, Kaori keeps to herself, unwilling to endure the pain starting a friendship will cause both to her and to the other party. But when Yuuki-kun determinedly pushes his way into her life, Kaori finds herself drawn to him in spite of herself. Can kindness and caring overcome tragedy, and can Kaori and Yuuki become more than one week friends?

Show was wonderful. Too bad the manga translations have fallen way behind. I've yet to read the last three chapters I believe.

Spoiler ([Click to View](#)) Kaori starts to remember Yuuki.

I doubt there ever will. They adapted volume 4 of the manga slightly different so I'm not sure how they'd overcome that. If memory serves correct, the anime goes up to chapter 22 when there are 41 chapters I think.

And is the Manga still on-going, or is it finished and we're just waiting on the translation?

I think this show could have been much better. Its been a while since i saw it but i remember feeling like its story was lacking.

Still, it was a cute, enjoyable show.

Alright. I'll be sure to read it then because I want to know the end of the story. I can't really pick it up from where the Anime ends up, because it's different from the Manga, right? I'll have to look up which chapter to start from.
