DROP YOUR BTAG!

Sir Hunningham - May 3, 2016, 3:03 pm

its not dropping anytime soon.

It is blizzard.

Honestly \$40 for a solid balanced game is amazing.

Manks - May 3, 2016, 3:23 pm

If I wanna play TF2 I'll play tf2. Game doesn't look worth actual currency tbh

No it's just hype bro. It'll be more easier to get keys or free stuff from it once the hype is gone. I don't know if you can tell it was the same with Heroes of the storm

In?sane? - May 3, 2016, 3:45 pm

Will try the open beta out since they have been cheeky enough not to give me access to the closed ones, if i enjoy it i will get it.

Annoited - May 3, 2016, 3:46 pm

I just got a beta key from a friend today, even though open beta is soon. Going to try it out tonight! ?

Yeah its pretty great. Bummer that a lot of people don't understand how to team comp properly. Seeing a lot of easy wins taken away because the team has no healer.

You should change the title to: "Why are you not playing Overwatch?"

changing it rn.

any you know it will last for a WHILE.

The-Noob - May 6, 2016, 3:41 am

TBh i like it! One of the only games that is actually balanced and offer's the ability to change character to suite the situation. I also hear the Russians are moaning at the price which i think is a good thing :D

Wait, if it has ranked how would that make it more fun?

Cyber - May 7, 2016, 9:47 pm

I played it and honestly think it's overhyped and unbalanced. All they gotta do is have a full team of tanks to sit in the capture so with their shield what are you gonna do then Imfao

Grim - May 7, 2016, 9:49 pm

I just played with a decent team comp against 3 bastions.

We rekt them.

You just need one Dva or a junkrat to bombard them.

Also I think roadhog can pull.

With Widowmaker you're gonna get rekt when u start playing with high lvl players.

The-Noob - May 8, 2016, 4:44 am

TBH i love tracer, i have her down as my best character to play with as i think i have a really good play style with her. If they are just sitting on the cap point i find it really easy to zap around and take out the campers at the back, get a special and then drop your payload on the sitting tanks.

Loving the game so far!

D????????????????ark - May 8, 2016, 4:46 am

I feel like this is the first game in a while ive been actually verrryyy good at.

I average 25+ kills with widowmaker usually.

We had a game where we all stacked D,VA and as we got to the cap point it seemed the other team had stacked winstons lol. They then changed to genji to counter us with his deflection lool, was a funny game.

I few things need to be fixed thou, like the absurd hit box widow maker and hanzo have, more so hanzo if anything. Only have to aim near them to get a hit, pure skill lesss characters atm

Snory - May 9, 2016, 2:05 pm

Overwatch is really fun, I've been playing the beta on xbox and I've already preordered it. It's a really quality game, it's so much fun when you're running with your squad.

It still manages to be even when your losing, at least in my opinion.

theChive - May 9, 2016, 2:18 pm

I played the beta and it was kinda fun. It definitely needs some refining but it looks like a promising game.

strpowerpwn - January 23, 2024, 10:45 am

The Final is better than Overwatch imo

Jamika - January 23, 2024, 10:50 am

Just saw it and didnt like the game itself, feel the idea is used mannnnyyyy times already

dardan1999 - April 13, 2024, 8:34 am

Not playing these kind of games because people are sweating too much

DemonAsylum - April 13, 2024, 4:15 pm

Never had any interest in Overwatch. I guess to be fair I never actually gave it a try, but I think we all have those games or types of games that we see and sort of just know for whatever reason aren't for us. That's how Overwatch was for me.

Nah though I think many of us know exactly what you mean and have been in that place with a game before ??

I am still thinking about it. I like this game and playing since 4 years. I would be best recommendation. Are steam and blizzard competitive? Game engine is good and stable too.

The sequel is why it is rated so poorly. If it was Overwatch 1 then it would have at least 7/10 but likely 8/10 imo. They lied to a lot of their fans.

I don't play Overwatch because my favourite genre of games are RPGs, MMORPGs and the like.

ahw9n2io8wd9h - June 16, 2024, 10:53 pm

Played 1 for a while, tried 2 but couldn't get into it. Game has become garbage, new heroes are awful. Seems to be the case for most games now days.

Looking forward to Valve's new Arena Shooter though.

DemonAsylum - June 25, 2024, 10:42 pm

Overwatch kicking at all these days? Still not something that appeals to me, but I'm curious to know if anything is happening with it still. Feel like I never hear or see anything for it.
