Thread: [Hello everyone , I decided to make tutorial how to do sql injection](#)

tarakaske - May 6, 2016, 9:00 am

I strongly recommend you to use VPN(Of course paid is better but there are some good free too.) or RDP/VPS while doing this!

1.Open Sqlmap Dumper v7.0

[IMG]http://s13.postimg.org/rrcw8qwuv/Pv_Sw_H1_V.png[/IMG]

Put some dorks from the list

[IMG]http://s21.postimg.org/xyz18i06f/12l_UW0i.png[/IMG]

2.Click Start Scanner

3.Wait few minutes . If you don't want to wait the full scan , click CANCEL in the bottom.

4.Go on tab Exploitable and click on Start Exploiter

[IMG]http://s2.postimg.org/hxldlwxtl/2z_Jz_UMb.png[/IMG]

5.You can still CANCEL at any time if you don't want to wait the full scan, just be sure there are some sites already loaded.

6.Go on tab Injectables and click Start Analyzer

[IMG]http://s2.postimg.org/gcb5r7tx5/3g95_Ldn.png[/IMG]

7.See below the injectable sites , also watch for the METHOD.

[IMG]http://s17.postimg.org/s2g3wga3z/DXFJJq_N.png[/IMG]

9.Right click then CLIPBOARD, see the method,in my case MySQL Union

[IMG]http://s23.postimg.org/ek0e1bqq3/n_Du_P1_Ri.png[/IMG]

10.Go on tab Data Dumper,then paste the link and select the Method which you saw in step 9

[IMG]http://s23.postimg.org/p88qdwq2z/RTGYSe_X.png[/IMG]

11.Click Get server info and wait.(In some cases it doesn't load , make sure that the method is correct, if still not working , just select other site to inject)

12.Now click Get Tables

http://s1.postimg.org/x5mlwzgrj/b6pix_II.png

13.Depends on the site , you will see different things here.I will just show you how to grab that(You can get different things like admin login,credit card info,email:pass etc)

14.Select whatever you want and click Get Columns

[IMG]<http://s22.postimg.org/85cr3pfhd/Tretfxm.png>[/IMG]

15.Again mark something something and click Dump Data
[IMG]http://s8.postimg.org/qs769mjet/Olb6_Dlo.png[/IMG]

16.I found it without decryption need (because usually admin password is encrypted with MD5 or SHA1)

Learn To Inject Manually.Much More Fun In Manual Injecting.Tools Can't Help Where There is a little Tough WAF

But The Posted Tutorial Is not bad.Good Work !

jaultop - May 6, 2016, 8:56 pm

thanks for sharing this tutorials

- **-Error 404-** - May 9, 2016, 12:40 am

I prefer using SQLMap on Kali :)

DataDumper - May 9, 2016, 12:54 am

I dont know why u need kali to use sqlmap, kali linux is great but if you are doing only sql injection u dont have to install kali to do that.

I also suggest to switch on manually injection, tools cant inject more tricky sites. The search engine scraper included in SQL Dumper is old and the search results are not even worth a try.

Correct, I have a tutorial I put up not long ago on how to go about getting SQLMap on windows, [here](#)

Embered - May 9, 2016, 12:05 pm

Do you have a link for sqli dumper?

jonathanxx1 - May 10, 2016, 5:20 pm

Same for me,,is there a clean version of the latest release of sqldumper somewhere on HackForum?

Regulus - May 10, 2016, 5:24 pm

Thanks a lot for this buddy!

Baccaa - May 10, 2016, 6:52 pm

Will I be able to hack my own weebly website or will it be considered a hack to weebly

•^v^-[bLacKn3x]-^v^• - May 10, 2016, 8:56 pm

Thats no tut about sql injection ..
.thats a tut about "how i use sql dumper"

XeAnarchy - May 11, 2016, 6:53 am

would this work on flash based games?

blazelord - May 11, 2016, 8:52 am

new to this .. would love to know more about it ... thanks mate

i didnt say that you cant do sql injection from any other OS, i just like kali linux.... anw i think you are correct about manual injection :)

aprilfool - May 13, 2016, 8:36 am

need a paypal page for payment

Gee4rce - May 14, 2016, 6:44 am

It is nice you wrote a tutorial and want to spread knowledge,
very kind of you! Looking through it, i see good and clean documentation,
pics are provided for every step. So good job on this!

The only thing i have to bug you about is the misleading title, as this user already pointed out:

(May 10, 2016 08:56 PM)Blacknex158 Wrote: [\[CITE\]](#) Thats no tut about sql injection .. .thats a tut about "how i use sql dumper"

I'd fix the title to "How to find SQLi with Tool 'SQLi Dumper'..." or something like that.
But all in all good work.

Cheers, Gee4rce.
