Who needs condoms when your pull out game is as strong as cruz's election run.

It's not that deep fam.

I had it once as well and holy fk I nearly had an heart attack. Had to go buy one of the clearblue test and it was embarrassing. Haha.

Lol I would not trust condoms from a free source. Spend \$5 and get condoms that won't just break. You'll save yourself a lot of trouble.

Vouch for these condoms. They're free, however my girlfriend is now pregnant.
