Thread: [\[Official Group\] SheepGang Recruitment](#)

Divined - May 6, 2016, 5:14 pm

SheepGang is a gaming group that will be hosting multiple tournaments across all platforms and games. People will be put in one of the two teams randomly, the white and black sheep. Remember to put effort in your application.

Keep in mind that joining a gaming group requires patience, dedication and co-operation. If you do not possess these values, do not even attempt to join. If you fail to participate up to 3 events in a row that you sign up for, then you will be removed from SheepGang.

I got back into the modding scene about 2 years ago and now I am getting into developing websites and creating tools. My most recent tool was titled "livemacro". Why do you believe you belong to be a part of this group?: I wish to join Sheep Gang because I am passionate about gaming, and this is a group that embodies gaming. I was previously a member of Respawn (user group focused on gaming), and I really enjoyed my time there. I would like be to be given the opportunity to have access to a subgroup of people who share the similar interest towards gaming that I do. I want to be part of the discussions, group activities, guides, and public forum activities that goes with being part of a user group. I would also like to be given the opportunity to learn from others who have experience with games that I am not familiar with or games that I never gave a chance due to a lack of understanding.

Will you be dedicated to the group?: Yes, I have been a member of multiple other usergroups including Respawn, Logic, Echo, The Order, Eternal and Enigma and have demonstrated my ability to remain active while being in those groups. Gaming is a passion of mine; therefore, finding the will to be dedicated to this group will be no problem.

Do you have anything note-able gaming related?: I began playing competitively in halo 3, where I grinded to the rank of a 5-star general with 6 50s. I then became an avid Gamebattles player, having many top placings on the Halo 3 singles and doubles ladders. When Reach was released, I became the #1 overall ranked Gamebattles player for the first 7 or so months before slowing down. I continued to play Gamebattles, and amassed the overall records displayed in my signature, in addition to other top teams that I do not have the URLs for. I continued to play Halo 4, and ended up coming in 2nd place in the Gamebattles doubles play-offs, after beating two professional teams to make it to the finals. However, due to time constraints related to my university workload at the time, I stopped playing as much. I also grinded the crap out of MW3 after its released and maintained a top 50-60 position in FFA until Christmas break was over. I was almost top page for strength when OSRS was released.

Here is my old Halo trailer: <https://www.youtube.com/watch?v=sTCwkCqzAmc> <- I am currently working with an editor to release a complete montage in the near future.

Why do you believe you belong to be a part of this group?:

I belong in the group because I'm an avid gamer, and have been for as long as I can remember. When I was 4 or 5 my parents bought me a gamecube for my birthday when it first came out and they couldn't get me to stop playing it. I fell in love with gaming at a young age and the same passion I have for gaming hasn't changed. I still play games almost daily on my computer. If I get a spot in the group i'd be active AS FUCK. I've wanted to be in a gaming group so bad since I first joined HF because I've just wanted meet new people to play games with and to be a part of a very tight knit gaming community.

Will you be dedicated to the group?:

Yes. I'm on my computer at least 3 hours everyday, and since summer is coming up soon, it'll be a LOT more. I'm willing to spend most of my free time participating in group activities and talking to members in the group. I've also recently spent a huge amount of time of HF in general so remaining active in the group won't be a big problem for me. Even if i'm not at my computer on a certain day, I will try my best to still be active in the subforum from my phone

Do you have anything note-able gaming related?:

Why do you believe you belong to be a part of this group?

I love Gaming.

And yeah I guess that's not enough so here are some more arguments to get my secret Death Star plans in your group:

I'm a very good Battlefield 4 player on the XBOX. I am close to 400 hours play time and have the rank 114. I spend most of my spare time gaming or on HF so this group would be the best combination for me. I was a very good player in GTA IV and my passion moved on (and increased) to GTA V. I don't have my online stats in mind but I guess they are awesome. But I know for sure I'm good enough to not get killed the second another player sees me. In Advanced Warfare I'm decent, not the best but not a total noob either. I prefer Battlefield.

Will you be dedicated to the group?

Oh hell yeah. As stated above this group will combine my most favorite things. I already spend my time on HF and on Gaming so I don't see a reason why I shouldn't spend my time with this group.

Do you have anything note-able gaming related?

My Battlefield Gameclips have hundreds of notable moments but this stands out the most:

I managed to get a kill with a TV missile (a missile you can control where to fly) at the beginning of a round by hitting a jet that just started.

Some notable IRL gaming moments were the ability to play some games at gamescom if that counts.

I've been gaming since the Sega ages. Started competitively gaming for Halo 2. That game changed everything for me and I was mind blown from it. The year 2000 really changed everything for me. With the Halo 2 release and my Ravens winning the Super Bowl. I'm very competitive when it comes to gaming. I'm also a chill member and easy to communicate with. I also keep my composure while gaming. Thanks for the opportunity!

Will you be dedicated to the group?: Yes, I will be dedicated.

Do you have anything note-able gaming related?: Was a big halo fanatic. Would play H2, H3, Reach, and 4. Also have played COD4, MW2, Blackops. I mainly play sport games now like 2k16. The playoffs are open us and it's almost over! I'm waiting for the new Gears to come out for Xbox One. Haven't played H5 because it's a joke now, compared to what it was. Achieved a legit 42 in team snipers in Halo 2. Was hard to get passed 40+ because there was modders and cheaters. For H3, I achieved a lvl 50 in TS, and a 47 in Team Doubles. Also had a 39 in lone wolves. I did game battles for Halo 3 and had my own team. Also lanned locally for H2 for FFA and placed first. Tophers, a semi pro, was also in that game.

Favorite quote?: "Everybody, one day will die, and be forgotten. Act and behave in a way that will make life interesting and fun, fuck a mundane predictable life working Monday to Friday with something you derive no pleasure from; just living life out till you grow old and wither away. Find a passion, form relationships, don't be afraid to get out there and fuck what everyone else thinks, trust me it's a lot more fun that way.

Don't ever pay people out or put people down. Instead just put yourself up and let the haters do their thing. I'd rather be a person that's hated on, than a person that does the hating. A wise man once said..

Why do you believe you belong to be a part of this group?

I am a great lover of games, something that I don't often give publicity to. I enjoy spending a lot of time playing GTA V on my Xbox One, and Minecraft on PC.
I'd have to admit that I generally play alone, which... yeah I know, sounds sad. However, I often find myself fixed into competition and virtual realism.
I believe that I belong in this group because I would love to widen my field of gameplay into a more communal setting, giving me the chance

to play with and alongside other HF members who share the same interests.

Will you be dedicated to the group?

Absolutely. Across these next couple of weeks I will be spending a lot of time studying to take my final exams.

However, after this I will be mostly free until the end of the summer, leaving me a great deal of time to contribute and commit my dedication to the group.

Do you have anything note-able gaming related?

I've been a gamer since I was 4 years old when I got my first PC. I remember the days playing RC boat challenge and F1 2000 with my dad, which has continued my lead in the direction of gaming ever since.

I've also been playing Minecraft for over 6 years (since 2010) when it was first released. I feel that I have met many great people over the years, who have taught me most of what gaming is to me today.

Do you have anything note-able gaming related?:I used to fuss around in CSS/CS:GO and write sv_cheats 1 scripts that do a whole lot of stuff from firing shit to building entire maps with the execution of a config. Also used to find exploits such as server crashers, color names, scripts that fuck with other users on the server (for example it will crash their game) - etc. Basically source engine exploit that gives you a little kick out of it. It's fascinating to find loopholes in the source engines because theres an unlimited array of stuff you can find if you go down the right path.

Why do you believe you belong to be a part of this group?

I believe I belong a part of this group because I've built a gaming computer, and never had anyone to play with.

I've bought tons of games, and I've played them all solo which takes out a huge fun factor.

A gaming group such as SheepGang allows me to meet new people, share good experiences, and overall have a great time gaming with others.

Will you be dedicated to the group?

I'm on HackForums a lot already, as you can tell by my [10 Daily Post Count](#).

I'm also [active](#) in Riptide, a group which I am already in.

Now that Summer is coming up, you can expect my activity to go up 2x!

I would be glad to represent SheepGang, and glad to be dedicated not only in the subforum, but in tournaments, meeting new people, and gaming with others in general.

3. Runescape
4. Call of Duty: Black Ops

[Euro Truck Simulator 2](#) is by far the most beautiful and relaxing game I have ever played in my entire life.

The amazing mods available for the game, only add-on to the content & beauty.

The map is huge & expandable through mods which makes the content, endless.

I've personally invested \$200 for a gaming wheel for this game & I'm so glad I did because this game is amazing.

Inhalation of 100% pure helium (which is not mixed with oxygen) causes rapid death due to oxygen deprivation (since the helium displace the oxygen).when breathing pure helium inside a plastic bag, unconsciousness follows after about 5 breaths. In 62 cases where "time to unconsciousness" was reported, the average was 35 seconds (range 10-120 seconds). Death will often follow in about 10 minutes, sometimes as quickly as 5 minutes. Elapsed "time to death" was reported in 108 cases. The average was 13 minutes (range was 2 to 40 minutes).

Why do you believe you belong to be a part of this group?

I've been playing games from a very early age and have amassed over 1,000 hours on CS:GO specifically, as well as nearly that many on the others combined.

I'm passionate about games and I want to share that passion with a group here on HF since I've never been a part of one before.

Will you be dedicated to the group?

Since I have returned to HF recently, I can say that I will be posting actively in the subforum as well as around the whole site.

This will be my first group here, so I'm ready to get as involved as possible!

Do you have anything note-able gaming related?

Why do you believe you belong to be a part of this group?:

I've been in Instinct and nightfall and I loved it. The gaming group atmospheres are the best. You don't have to compete for group activity, it just naturally happens within a gaming group on a forum like this. It's nice to be able to find some new people to play with/coordinate tournaments with other people. I was also a leader of Nexus for awhile. I held a couple of recruitments for certain teams in that category and it was a lot of fun.

Will you be dedicated to the group?:

Oh for sure. What ADD dude doesn't like spending all of his hyperfocus skills for the wrong reasons, behind a computer monitor?

Do you have anything note-able gaming related?:

When COD 4 & MW2 were very popular I was into the game battles stuff. If I could find my account I would link that. Other than that I could just name some basic stuff:

- Lead a gaming group on this forum.
- Helped organize a gaming subsection in a non-gaming group.
- Was active in Instinct/Nightfall
- 10 prestige ;)
- Idk if this helps or is relevant, but my major is in Computer Science.

Do you have anything note-able gaming related?

I'm always switching up games so its hard for me to get very good in a single game. I feel like if I find the right teammate, I can shoot up in ranks easily.

Gaming Platforms: Playstation 3, Playstation 4 & PC.

Games: I have too many but here are a few of my selective favorites: Anything within the Halo, COD, FIFA & GTA franchise. I've got many other games from other genres too.

Why do you believe you belong to be a part of this group?: I wish to join Sheep Gang because I am passionate about gaming, and this is a group that revolves around gaming. I would like to be given the opportunity to have access to a subgroup and subsection of users that share the similar interest and acquire the same passion towards gaming like I do. I want to be part of the discussions, group activities, guides, and public forum activities that this group includes, it'd be my honor and pleasure. I would also like to be given the opportunity to learn from others who have experience with games that I am not familiar with or games that I never gave a chance due to a lack of

understanding, I have many games like this - I'd also like to find purpose within the game and hopefully they'll share their experiences with me.

Will you be dedicated to the group?: Yes, I have never been a member of a group before but I have been a moderator on 2 forum boards, so I know how to be dedicated. Gaming is an extremely strong passion of mine; therefore, finding the motivation to be dedicated is not an issue whatsoever, it's natural.

Do you have anything note-able gaming related?: I began playing ever since I was young, however as time progressed and advanced games starting coming out, for example: Modern Warfare 2 & Halo, that's where I knew I had a strong passion towards gaming. I have acquired many trophies due to my gaming experiences and skillfulness. I have appeared on leaderboards upon many first person shooters and, on the football/soccer game FIFA I have started a team from scratch and it now has some of the most legendary players in the game. I am also extremely competitive. However, due to lack of time due to my final year in college, I stopped playing as much. This has changed and I'm as active as ever.

I will also host some game tournaments (if that is ok with you) with a prize.

PC, PS4, Xbox One, Wii and of course a phone.

Games

I play a lot of games but to keep it short, I really like FPS and ARTS & MOBA games. I'm also very experienced league of legends player and also really good at counter strike.

Why do you believe you belong to be a part of this group?

If there's one thing I'm dedicated to, its video games. I've been in the gaming community since I was 7 years old when I first got my computer. I've basically always felt passion for gaming.

I'm also quite good at setting up tournaments and brackets for LoL & CSGO.

But why choose me?

I love video games very much. Maybe a bit too much. I could imagine myself playing all day long. I'll probably choose video game development as a career, I've neglect everything else in my life and become obsessed with video games.

Will you be dedicated to the group?

Of course, I will since I've been obsessed with video games for almost my whole life. I've also got some event ideas I would like to share with the group. I would also love to participate in any tournament.

Do you have anything note-able gaming related?

I've been master tier on both EUNE and West servers in League of Legends. I've also hit global elite in CSGO. Those are my biggest accomplishments in gaming

To be honest it would take at least 8 hours to list all the games I have, so I will list the ones I've been playing recently. The Witcher 3, Dark souls 3, COD black ops 2, Minecraft and GTA5.

Here is a couple I haven't played in a bit but I always enjoy playing: Hammerwatch, Terraria, Dark souls 2, Devil may cry, Dead island, Dishonored, Distance, The binding of issac(Series), Left for dead 2, Meltdown, Mount your friends, OlliOlli, Portal 2, Risk of rain and Starbound. I could list more but that would take all day sadly. I can say for sure I have a passion for video games.

I play solely for fun, I'm not a hardcore competitive freak but I do enjoy comp on CSGO even though it's been a stressful few months so it's been on hold for now. Also, I've only been a part of one group on here which was AnimeFan! at the time. I'm looking to experience more fun in other groups!

I have a good reason to get into the group , i know i have only 1 post and i am fresh user.

but i have a reason to enter the group .. so first of all i never was in a serious group .

i never played with / talk with serious people that i play with them or was a friend of them.

i really want to join this group , to meet friends , and help you too !

I could help a lot of things ..

If it's a financial investment or a big advertising that I had the opportunity to publish tens of thousands of people .

also i have the free time to participate in any event on any day and sometimes any hour.

I always wanted to be in a official group with a serious people that gonna be your friend's and they gonna help you and you gonna help them and save their back.

Im sure that this group is for me , and i'm sure that i can change things and be the best member .

just give me the chance to and dont judge about my posts count and my registration time , beacuse i will change it , fast as i can . :)

I wish the succses to myself about entering this group.

I hope that i will get the chance to join :)

Sincerely , Eddie

Why do you believe you belong to be a part of this group?: I'm a really fun gamer to play with! That's the main reason I'm actually going ahead and applying. I game all day every day, you'll never see me in my room and not on my consoles. I play games and browse HF in the intermissions (when I die, halftime, etc.). I'm always making friends with the people I play with as I always, always have my mic plugged in to make funny comments or scream when fifa pulls some bullshit :D. Most would say I'm a friendly and nice guy and can be really fun to spend time online with.

Will you be dedicated to the group?: Of course! That's an easy yes, I'm always looking for people to play with and to learn the games I'm playing.

Do you have anything note-able gaming related?: Not really. I own a \$400 pair of headphones (Astro A50's), and have invested tons into my own monitors, accessories, etc. but nothing that really sticks out.

Star Wars: Battlefront (DICE and Original versions)
Counter-Strike: Global Offensive
The Fallout Anthology
The Elder Scrolls VI : Skyrim

Minecraft

Do you have anything note-able gaming related : Notably, I have taken three years of game design classes, I have successfully been apart of two different CS:GO amateur competitive teams, I have obtained the rank of Legendary Eagle Master at my prime in CS:GO, and I have been an active player of Minecraft since it's alpha stages in 2010.

Will you be dedicated to the group : As long as I am not working, or out with friends I will be as dedicated as humanely possible. I work a part time job, however when I make commitments I stick by them. I'm looking to join the group to be more active in this community, so I believe that my dedication will be on par if not higher than some of your most active members.

Why should you be accepted / Why do you think you should be a part of this group : I believe I should be accepted and be a member of this group, because of my dedication, my integrity, and my reliability. Although me being fairly new to the Forums, and being a long time lurker- I believe that having me as an addition to your group will bring a lot of perks. These perks include having a funny yet serious person, someone who can help with a lot of technical sides of gaming, someone who can contribute time and effort into the group, someone who knows how video games work, and finally someone who will bring the vibes of the group up.

Why do you believe you belong to be a part of this group?:

Why do you believe you belong to be a part of this group?: Other then work and college, all i do is game, from when i get home until i got to bed, other then surfing HF in between games. My whole life I've been into gaming from cod, halo, to just the random simulators or games like rust. My dad even calls me a nerd and says I'm like those on the show big bang theory, i love gaming it has been my life since i was a about 8 years old, I'm always buying the new games, the next console, i used to have a ps4 but sold it because i pc'd game more. I am really into league of legends right now, that's the game i've been focusing on all summer and been trying to get better at, im in silver right now but am trying to climb out, i'm a very good jungler. I mainly am into first person shooters, like cod, or csgo, but i have a new passion for league, i also am waiting for borderlands the presequel to come out. I love any game that has a competitive scene too it and am always willing to try new games out. I think i would fit into this group because im willing to try any game out and always like to find new people who enjoy the things i do and also because of my insane gaming passion. I'm pretty easy to get along with also, I'm very laid back and like to joke around and have fun, but i also am very competitive at games, i want to win at all cost. I used to play cod competitively out of all my friends everyone knew me as the best at video games, but as my friends grow older they game less and less so i would love to join a group based on it so i can make new friends to game with

Why do you believe you belong to be a part of this group?

I'm a laid back individual and enjoy spending my free time playing video games with friends while meeting new people doing so. I have been in gaming groups before and I fit in with the atmosphere very well.

Will you be dedicated to the group?

I will, yes. I just spent a good chunk of my free time taking the time to get everything together for this application. I'm all about my team.

Do you have anything note-able gaming related?

I do! I have the collector's edition for GTA V. The one that came with the snapback, money back, blue print map, key, Khameleon hijack, Blimp, free weapons, percentage off at the stores and etc.

I also have an Elgato HD capture card for recording games.
