Thread: [Hack Forums Live Community Radio \(GFX, Radio Hosts, Events Organizers Needed!\)](#)

Nadisty - May 7, 2016, 1:30 am

<http://www.hflive.net/>

This is the official HF Live Community Radio recruitment thread, ran by [Nadisty](#) & [Illusionist](#) What are we about?

For those that don't know what we are. We are a group of individuals who came together to form a radio station. We took this opportunity after we realized Hack Forums currently doesn't have one. We will be providing music, news, contests, and giveaways. Please don't be fooled. As we develop and grow, we will not just be a radio station for Hack Forums but for an online community. We will always be based around Hack Forums. What are we looking for?

We are looking for enthusiastic & talented individuals who know how to have fun. In short, for this role you have to be hard working, enthusiastic, willing to progress your skills and be a motivated DJ. We are also recruiting for event organizers, graphics designers and news researchers. More will be available at a later date, but for now just these job roles are available

Requirements:

- *No scam reports
- *Over 250 Posts
- *Positive Reputation
- *Pass the trust scan
- *Working Microphone
- *Proof of what you can do
- *Have a Skype account
- *Have your own music (Music will not be provided)
- *Have the highest quality of music available
- *Able to follow a schedule
- *Speak English

Interested?

Great! Just follow this application and hopefully you'll get shortlisted to the next recruitment stage! We're not going to say take your time or if it's edited it'll be disqualified. The application might seem long and boring, but we're here long term and not just for one week. This is going to be for all of HF to hear.

If you make it to the shortlist stage you'll be contacted via Private Message to discuss further. If you have applied for a Radio Host position you will be required to do a 3 minute broadcast so we know that you can use the software, have a microphone and are confident on air. Graphics and Events will be discussed over Private message.

All I'm going to say is good luck, hope to have you on the team. Quote:Name:

Credit goes to Tony Stark for the site. When enough people apply we'll be up in around a week and half / 2 weeks.

Faith Connors - May 7, 2016, 5:00 pm

And I'm here boys with my two hundred and fiftieth post to finally meet the requirements.

Name: Aahgfdjhgrhgh, and I can give you my actual name in a PM or something because I don't feel comfortable posting it publicly here.

Age: 17

Skype: Yes, I do have skype, you can hit me up at: L46j9wK

Location: Canada, eh?

What are you applying for?: [Radio Host] or some kind of DJ, dunno if they're considered the same thing.

Please provide some proof for the following position/s you have applied for: Uhh, ch-check out my soundcloud? Doesn't have any mixes, but you can listen to my free radio if you want @ bromersond.listen2myradio.com

Are you willing to contribute?: You bet.

Tell us a little bit about yourself: I like music. Like, I really like music. I want people to be able to listen to the same music that I like and help them find something new. I'm from Canada, so that kind of automatically makes me a friendly guy and my voice is pretty good so I won't sound like shit while talking into the mic.

What makes you so special from everyone else?: I can listen to Earth 2: Special Low Frequency Version for hours on end and enjoy it.

In all seriousness, there probably isn't anything that will make me stand out from the rest, except that I have an extensive background in music theory, so it'll help me mix songs a bit easier. I played piano for about 12-13 years now.

How long have you been in your selected field and what made you start?: Playing Music: 12-13 years piano. Have all my Royal Conservatory of Music stuff, I can take a picture if you really want. Playing Electronic music: about three or four years. Making electronic music: Around the same time, but a bit later. Got into experimental and now I'm a braindead drone/dark ambient artist. Mixing: About half a year doing small gigs for friends and stuff. Got more actively into it last month and really trying to figure everything I possibly could out.

How active are you on Hack Forums?: I loungewhored from 180 posts to 249 today alone. That's how bad I wanted to apply lmao. I've logged in everyday that I could/wasn't away from my computer for about 4 months.

Thanks for reading over and have an awesome day! ?

Vouch for this. I was a DJ for the original HFLive and will be a DJ in the reboot. Tons of fun hosting your own show and receiving feedback from listeners.

You guys should think about contacting the brotherhood script leaders to get you guys hooked up with a script that will allow you to start playing the music without leaving HF.

Like move your mouse to the bottom right and hit play. IDK I'm not a coder

I've been meaning to start developing user-scripts. That sounds like a cool idea. I might try that.

It's about being part of a community, building a hobby and having fun.

We don't need to compete lol. No ones making money here.

[-]Name: Silent Bob :P Real name: Andrew

[-]Age: 19

[-]Do you have a skype?: Yes

[-]Location: United States

[-]What are you applying for?: Radio Host

[-]Please provide some proof for the following position/s you have applied for: Currently, I have no proof. However, I have been a radio back in the late 2000's for unrealIRCD servers and ChatSpace servers.

[-]Are you willing to contribute?: Of course, I wouldn't apply if I wasn't going to contribute.

[-]Tell us a little bit about yourself: I'm a graduate of HighSchool, I graduated this year, I live in my own home accompanied w/ my sister and her 3 soon to be 4 kids. I've always had an interest in music, being a DJ. chatting with people and more of the same. My father passed earlier this year, and left me the house I currently live in. I am currently unemployed so I don't have a job on my hands as of yet. I'm 19 years old who loves to keep it real with the HackForums community, and everyone I come in contact with.

[-]What makes you so special from everyone else?: Personally, I don't believe i'm any better then anyone else. Everyone themselves has their own ego, personality, etc and think highly of themselves as a whole. I personally don't feel i'm as good as the next guy, but its what you think about yourself that counts! ?

[-]How long have you been in your selected field and what made you start? (The boxes you selected above)? I started getting interest when I would go on a website (obviously a chat site) and would see that someone is online doing what they're good at. Take note this was in 2008-2009. One day I asked about being a radio host for the server radio, and of course they evaluated me and more

of the same. Then they put me on the radio to test. I made the cut and was able to DJ for a couple of months until the chat host decided he wasn't going to be apart of the chat server anymore and left them in a big struggle. So not only did the chat go down, nobody could afford the funds for the radio server either. So eventually, that went down. Eventually, I found new hope in other chat servers that had a radio. Not all of them had a radio at the time, but the big servers that were heavily populated with users usually had them. I always love being able to share my music with the community, I love being able to open up and be real on the radio, I love taking requests, and downloading what people want to hear, as well as being exposed to artist I don't know about! It's always a fun experience and informative experience for me, because I never know who I will/will not like artist wise. :P

[~]How active are you on Hack Forums?: I'm fairly active on HackForums, I had a time of not being active due to irl complications, but other then that the past year and a half i've been on hackforums and I'm on pretty much every day.

[~] Do you have a working microphone?: Yes.

Specified genre of music you enjoy?: I enjoy a lot of genres of music. Personally, I'm in love with classic rock, soft rock, modern day rock, and country. Rap is not my biggest, but old rap like bone thugs n' harmony, 2pac, lil troy, eminem, people like them. If I listen to rap, its thug rap back in the 80s, 90s, and more so of the same.

[~]Your experience?: I've always had a great experience. I am familiar with Icecast and shoutcast. I take requests, I enjoy being able to do what I do. On Windows, I like Winamp as my personal client of choice when it comes to radio hosting. But on linux, I use StreamTuner 2 or Radio tray.

[~]Can you do 3 shows a week or more (on air)?: I can do 3 shows a week, yes. I prefer the night shift though as that is when things are simmering down around the house, and nobody has to go anywhere. And I can also spend time with my nieces and nephews during the day. If not, we can discuss the schedule you are more comfortable with. With the night shift, I can sit back, relax and tune in and stream for the community.

Thanks for the opportunity to apply! :-)

Your experience?: I have a good experience, you will see if I get the opportunity.
Can you do 3 shows a week or more (on air)?: Yes. ?

I like you, i'll recommend Nad to take you on as a host, i'd be interested to hear you as one of our DJ's.

If anyone wants to be an official HFLive DJ, now's the time to apply!

On the OT it says that you are looking for news researchers but on the applications it doesn't state anything about them, was this a mistake or this job included in the Radio Host?

Is this an online or actual radio station?

Name: Vassilis

Age: 16

Do you have a skype?: Uprising.HF

Location: Greece

What are you applying for?:[Events/Promo]

Please provide some proof for the following position/s you have applied for: I do not have experience but I am more than willing to learn from more experienced

Are you willing to contribute?: Yes, I am. I will advertise HFLive to the best of my abilities.

Tell us a little bit about yourself: I have little social life lately since I will be staying in town while everybody is going elsewhere for the Summer. I usually just try to meet new people in HF currently and I try to post whenever I can to help people out!

What makes you so special from everyone else?: Everyone has their own abilities and specialities so I cannot say I am more "special" than another candidate.

How long have you been in your selected field and what made you start? (The boxes you selected above?): I have done some advertising for previous projects of my friends and I but basically that is it.

How active are you on Hack Forums?: More than it is healthy. (I was inactive for about a year and started again about a week ago.)
