Thread: [Show Online Status In Staff Page](#)

Neos07 - May 7, 2016, 12:09 pm

Sometimes there is an urgent question or something, and I have to check every staff if he's online, it will be very useful to show it on the staff page:

Aren't they shown on the front page under Who's Online?

Not a bad idea but for now you can just click each staff members profile to see who was most recently online.

Yes that's what I'm doing and I was doing is checking everyone, but I think it's a good idea to see who's online on the staff page better than spending some time checking one by one.

Always an good idea coming from Neos07,
I think many people will be of your opinion.

Staff actually often prefer not to display that. Sorry but no.
