Thread: [Just bought l33t, what did you first do when you bought it?](#)

Forsen - May 8, 2016, 6:25 am

So I just bought l33t - Big thanks to Omni for delivering within 15 minutes - and my question is, what did you first do when you bought l33t?

The first thing I did was enable 2FA, then rep the people I've always wanted to rep.

What was the first thing you did when you bought l33t?

Vitani's Mate - May 8, 2016, 6:28 am

Lets see.. I got a boner seeing my username being yellow (Back in the day it was yellow) I cummed in my pants.

Then I went to the VIP section (Sadly it got deleted) and hung around there for a bit. Then I repped a people who repped me (I know.. Shut the fuck up)

But anyways.. Congrats on getting L33T OP.

J?son - May 8, 2016, 6:29 am

Hell, I'm new here and I just bought l33t, almost solely for 2FA. (Shout out to Omni for the quick upgrade btw)

Just a couple days reading around the site and I figure I like the place enough to stick around and 2FA seems like a very good idea considering the million hackers here.

Lorenzo Gucci - May 8, 2016, 6:44 am

Congrats on getting leet.

I enabled 2FA, put an image in my sig & repped people. All after jizzing in my pants though.

killcode567 - May 8, 2016, 6:51 am

Regulus gave me a l33t upgrade for supporting FUCK CANCER (Very thakful for that which is why I still wear the sig). I did the same thing as you but I didn't activate the 2FA thing until later. Never heard of the thing till I saw it here. I bought myself UB3R because I wanted the neg rep abilities, not to be a dick or anything but I didn't like how you can't neg rep when your l33t.

I can't even remember what I did and it wasn't long ago at all. I just had some cash spare and decided to upgrade here, don't really think I thought much of it at the time.

Short time memory? And thanks for the rep.

I thought l33t was one of the requirements for ub3r? I'm confused.

When I got L33T I changed my username and then my user title. Also enjoyed giving some green +1s.

Congrats on the upgrade.

Ratir48 - May 8, 2016, 7:32 am

I bought l33t because I needed to post in marketplace but was too lazy to make 10 posts lol.

So the first thing I did after getting l33t was to spam the marketplace.

It felt very satisfying

?Kill? - May 8, 2016, 7:32 am

I probably just repped some guys I'd always wanted to.
