This song is so chill. I haven't been able to stop listening to it. I can't wait till one of my friends give me the AUX cord hahaha.

I find it hard to call this trap. It's more like ambient / progressive. It's chill, but it's not giving me a "trap" vibe lol

Makes sense, I agree with you completely. I was just sharing the song and so I had to use the real name lmao

Downloaded it and put it on my phone for when we hotbox and I light the aux cord on fire.

The album cover is sick asf also:

I prefer the original song not this remix.

Yea all good, I just get confused by genre classifications lol, especially when you have mashups of multiple genres.
