Thread designed by in photoshop

Spoiler ([Click to View](#))

Please rate my work out of 10?

Sorry for LQ image

Don't know if it's just me, but everything looks blurry after the header. (Not too blurry, just looks LQ)
The idea is very nice though, good work. Instead of having the green and red you could've used the color scheme a bit more. Make the green - gold. Red - Darker gold or don't add a negative x at all.

Yeah,the final generated was LQ(Due to slow internet connection)

Anyway thank you for your suggestions,really helps me improve in my design quality and creativity

That's what I'm here for man! Keep it up!

Oh and the top right corner looks great, really gives it the elegant feel right when you look at it.

worst color to pick for a font with that background, the type of TD that would make me click away instantly.

edit: nevermind you fixed it.

The quality of the outcome is horrible, not sure what settings you saved it as, but they're terrible and they make the entire design look faded and blurred with a lot of noise.

The color scheme is a bit depressing to me personally.

I also see that you have a lot of spacing and centering issues, 3rd dot on "Terms and conditions" being a very obvious one.

The green checkmarks and red X's also seem to be unevenly spaced out and off.

Shadow on the cube is a bit too long also given where the light sources are for the face of the cube.

Fix a few of those issues and you'd get a better rating, but as it stands, 4/10

it looks ok but the coloring is weird

The thread design doesn't look that appealing to me. Maybe it's because of color and font style. And I don't think ?? on terms and conditions look good either.

The colors just aren't appealing to me at all and it all looks blurry. The layout isn't too good as well. Keep practicing and you'll get better. Good luck OP.
