i dont want to use my own network or buy vps i want to buy stresser

Yassuo - May 10, 2016, 8:00 pm

I think any booter from the SST Section can hit 10 gbps

Essence - May 10, 2016, 8:03 pm

How about you open your eyes man, I'm not going to spoon feed you. Go to the Stress Testing section @market.

nightkyze - May 10, 2016, 8:07 pm

If you are looking to buy a booter, and not willing to make your own which is more economical go for rage booter 6\$ monthly hits well. Don't ask stupid questions in here I just answered because I don't want to be rude to newbies.

Josh Smith - May 10, 2016, 8:10 pm

I can help you get a powerful stresser. I can get you your own attack slot. If you are interested PM me with your budget.

nightkyze - May 10, 2016, 8:13 pm

josh, I don't think you're trustworthy just saying you seem to have no rep and joined like a week ago.

Yes, we offer 10Gbps or more per user hit.

balha - May 10, 2016, 9:54 pm

Most of the booters say attack with more than 10Gbps. Now, is it true?
No fucking idea.

lol, fagbooter output 14mbps - 15mbps per attack :3

Arkks - May 11, 2016, 4:46 am

they all should hit at atleast 10gbps

They definitely don't.

vfragtasticv - May 11, 2016, 5:32 am

Taking down hosts with very strong layer 4 attacks.

Can take down: Web, Servers, Home Connection, Popular websites.

For low price ?

Yah rage booter where I bought a lifetime membership that expired and had no power for the months I used it. Great suggestion

Mr.Motivation - May 11, 2016, 9:51 am

youboot.net is strongest public booter ive used

Josh Smith - May 11, 2016, 9:54 am

Looks like OP stopped at instaboot and got a package. Possibly.
