Thread: [\[Free\]Hitting down home connections and websites.](#)

xLelouch - May 11, 2016, 1:33 am

Hey there,

I been there for like 2 months now and learned lots of things. So I thought I should give something back to the community.

I will hit any of home connections and websites. I have both layer 4 and 7 attacks.you can chose which method I should use.I can't take down highly protected websites.

Requirements -:

Upgraded member or 50+ Reputation points.

How to get this -:

Quote:IP - (1.1.1.1) Port - (1111)

Layer 4 or Layer 7

Method (common methods only for l4. for L7 xmlrpc)

Duration - xxxx (less than 1200 seconds)

Time -xxxx (HF default time)

Copy and fill the above form [and send me a PM here](#)

Terms -:

There is NO guarantee that I will be able to take down the target.

Post feedback once I completed the your request.
