Thread: [Award Whore v3 - Add awards to your own profile with ease.](#)

H350 - May 11, 2016, 10:12 am

The Userscript:

[deleted]

In order to use this script you need to install:

[Tampermonkey](#) for Chrome

or

[GreaseMonkey](#) for Firefox.

If you don't use any of these browsers, go download any of them in order to use this userscript.

This is what it looks like:

For those who are new to this award, you basically go to <https://hackforums.net/myawards.php> and click on the awards you want to show-up when you post, on threads etc.

In this update a guy called [Hash G.](#) fixed so you no longer need to own awards to use this userscript.

Script originally made by '[Snorlax](#)

I don't take any credits for this userscript. It belongs to 'Snorlax and was edited by Hash G.

NOTE: This is client-sided and only you can see the awards.

Update Log:

Spoiler ([Click to View](#))

v3.0rc1

The awards now show up to the read right after replying. Thanks to [Hash G.](#)

Regards,
Shiryu.

Neos07 - May 11, 2016, 10:13 am

Good job, creative userscript. ?

Ooze - May 11, 2016, 10:14 am

Glad to see this updated using it right now

granz???????????????? - May 11, 2016, 10:14 am

Shiryu back at it again with the high quality content :) - nice release mate.

Thanks, but as said. I didn't create this userscript, I posted this because it needed to be updated so everyone can actually use it.

Ooze - May 11, 2016, 10:16 am

Wait I'm also using Hash G.'s My awards script which updates the Myawards page to look more clean

It seems they don't work well together

I don't think its compatible with his myawards.php script. I can suggest him to fix it though!

Yes I've noticed that as well.

I'm trying to fix it.

Ooze - May 11, 2016, 10:38 am

Im not the only one who did this right?

BTW I just turned off the award page script

K3njii - May 11, 2016, 1:09 pm

Just tried it out pretty cool thanks.

Lol imagine if that was real!

H350 - May 12, 2016, 7:43 am

I have found a few bugs, will report them to Hash G. and maybe he can fix them! Enjoy the script for now.

v3.0rc1 is now out, check out the Update Log.

TopKekeroni - May 12, 2016, 11:46 am

Vouch for my boy Shiryu, he knows what he is doing. :)

You can click it multiple times, you can have e.g. Master Donator as many times as you want.

Soon asking Hash G. to make another bug fix for the update log.

Hash G. - May 13, 2016, 9:44 am

I'm online if you want to ask me ?

If not wrong then a user called Snorlax had almost all awards for a day.

I was like WTF.

It's because he made this script.

Spritey - May 14, 2016, 10:00 am

Thanks for this script ;)

Mouse? - May 14, 2016, 10:04 am

Might dl it since it's the closest i'm apparently ever going to get to getting the RAT award. Boo hoo.

Haha, go for it. It's actually a really nice script.

i a m g o n e - May 14, 2016, 10:20 am

Make it so whoever has it installed can see eachothers things and it would be perfect lol!

b?xxy - May 14, 2016, 10:21 am

Pretty cool, although sometimes it adds the awards to OP as well. :P

I've been reporting over 15 bugs that has been coming and several has been patched.

Bluntmeh - June 6, 2016, 12:07 pm

I am using this now and I must say I think it's really cool and thanks for the release of this. I like the idea that I can at least have the awards for my own personal sake.

BlackAnonXX - June 13, 2016, 7:54 pm

hahahaha awesome let's see if works

cant find a way to make it work

Omniscient - June 15, 2016, 12:16 pm

This is setting off the firewall and blocking users running this. DO NOT USE IT.
