FAQs

Will you do a deal over discord, skype, or another third party?

No, ALL deals will be handled through the HF private message system.

How can I contact you?

To reach me as quickly as possible, send me a message over the HF PRIVATE MESSAGE system. I will get an email notification on both my computer and phone about receiving a PM. I will try to reach back out as soon as possible once I see the message.

Do your rates change?

Yes, I set them for what I want at the current time.

Why should I trust you?

I have exchanged tens of thousands of dollars worth of bitcoin (and alt coins). That includes large exchanges (i.g \$100, \$200, and \$400) all being done in one transaction too. As always, I am open to having a middleman (preferably Minimalist).

Is there evidence the transactions you have done?

Do you have BTC ? You can put 2-3 usd fees, i have a minor to accelerate the confirmations

Thanks You're about to get a real rude answer, I hope you realize your stupidity of asking me to do that.

If you bothered to read my thread, you would have seen the answer is CLEARLY NO. Right at the top, the first sentence of my entire damn thread, states that I am not doing bitcoin.

It's not even worth my time to do BTC. Let me break it down.

E.G) Start amount of \$100

BTC Scenario: Sending \$100 ---> +10% for buyer fees ---> Subtract \$2 or \$3 for sending fees (\$2 or \$3 for your case) = Profit of \$7 or \$8

Ether Scenario: Sending \$100 ---> +10% for buyer fees -> Include sending fees \$.50 to \$1 = Profit of \$9 or \$9.50

BUT, here's the thing, I do not have BTC to begin with. So in order for me to buy BTC it's going to cost me more money (an additional 1 - 4%), and if I even attempt to use shapeshift, I can expect to pay \$20 in miner fees.

And most people are expecting sellers to pay these outrageous \$10+ fees for sending bitcoin. Even if you are selling at 15%, it's just not worth it.

EDIT: It's only gets worse as the sending amount for bitcoin shrinks. Fees will remain about the same. EXAMPLE: <https://hackforums.net/showthread.php?tid=5752083>

Add me to your buddy list Valor so I can message you, as right now it is giving me errors.

Having a little trouble sending Paypal payment right now, hopefully it will be fixed tomorrow

But if not, I will send ETH back to you if I cannot have this exchange completed. So sorry for the inconvenience.

If it takes an extra day or two to get it to work, it's no trouble. Just send the PayPal when you can.
