Background: I'm a cheap cunt.

Information: I'm trying to get a smart phone from 2013 or newer for as cheap as possible. [THAT IS NOT A WINDOWS PHONE]

Question: Whats a cheap cellphone / cell phone plan?

Thanks.

What's your budget? What's the most you're willing to pay for a phone?

The Xiaomi Redmi Note 3 is cheap and surprisingly good for its price, the Pro version is better and costs a bit more.
