Thread: [2fa device smashed. What now:\(](#)

Imsorryformakingamulti - May 14, 2016, 7:51 am

So I lost my phone walking somewhere and i ran back to look for it. From down the block i see my phone next to the curb and as im running to it i watch a yellow cab run over that shit - _____ -

How do I get on HF now?

Og name: FawkesSake

Unkn0wnUs3r - May 14, 2016, 7:51 am

Should have used an auth with the ability to log in on other devices, I guess...

V For Vendetta - May 14, 2016, 7:52 am

Did you use Authy or Google Authenticator?

minimalist - May 14, 2016, 7:52 am

If you had any other devices signed on at the time with an HF cookie attached, then you should still be signed in - try that.

Else, use the [Contact Form](#) and follow this help doc:

<https://hackforums.net/misc.php?action=help&hid=17>

This is my new phone, I wanted to get onto HF because another member hooked me up with some netflix accs and I really wanna watch on my gear vr.

I can log onto an old device no problem

Click "CLEAR/RESET CODE" here: <https://hackforums.net/gauth.php>

You'll be able to login and set it up again.

Can't access that site :((

AnonNinja - May 14, 2016, 8:54 am

You can reset authy to a new device and all your codes will come on the new device.

You can even get authy from google store and use it on your PC
As long as you have the same phone number, you don't need to worry.

Omniscient - *May 14, 2016, 9:30 am*

And you're given the instruction to create a backup of your secret. If you didn't...then you're SOL.
