Thread: [Sticky Prices Reduced](#)

Omniscient - May 14, 2016, 9:07 am

I've lowered the price on a few sections to the base price of \$20 per week or \$75 for a full month.

Forum Sections Reduced:

Ebook Bazaar

Counter Strike

Non-Free Accounts

Anyone wishing a full price list can view the [Help Docs](#):
<https://hackforums.net/misc.php?action=help&hid=25>

I've also added information about Sales Tags to the help doc. A member reminded me that I had yet to put anything about them there.

To gain a paid sticky it's fairly easy. You send me a PM making a request. Include thread link and forum section requested. I will reply with either pricing and link (approved) or a PM saying it's "sold out". Section are each set to a max of 6 with the exception of SST.

If you wish to view sections are sold out or not you can check this page:

Thank you.

True, wasn't expecting this sudden change of cost

Will you be allowing us to rent for periods longer than a week anytime soon?

Prices fluctuate all the time. Some go up, some go down. All on the basis of demand. I prefer to sell out all paid sticky areas and if they aren't selling out then I reduce price. If they continually sell out then I raise the price.

It's always been a policy you can buy up to 4 weeks.

From the help doc:

"Stickies are sold in one week blocks and you can purchase up to 4 weeks."

Sorry, that's what I meant. Will you be allowing us to buy for periods greater than 4 weeks?

Omniscient - May 14, 2016, 9:17 am

Four weeks is still max with the exception for the \$20 per week sections can buy up to a full month.

Indeed, it would save time, but the question is: Would it be abused?

Would we see many stuck threads in a section?

Sevn Alias - May 14, 2016, 9:20 am

Good job! I might buy a sticky next week.

Nah, why would that be? It can easily be limited to 6 per section.

I think Omni is already cooking it.

Oh yeah, he is/was definitely working on it. This will be an awesome feature.

Keep automated for ub3rs only
If abused, Ub3r goes bye bye

#FreeTheBooks

IDK why there is a ebook market TBH. either publish it correctly, or release it freely. (Just personal opinion here, obv.)

The few notable ones I can make one really (Again personal opinion) dont really make up an entire section. I could easily bring up points that both fit categories as tutorials and ebooks are almost the same thing. They are simply informational guides, one way or another.

I digress and wander back to my drink now..... nice to see the pricing lowered to some sections, no doubt to boost interest I assume. ?

Thank you for the update Omni, looking forward to purchasing a spot soon.
